PRESIDENT RENEWS PLEA TO RUSSIANS TO BAR ALL NUCLEAR TESTS FOR YEAR

U.S. CARDINAL MOONEY DIES AS CONCLAVE IS ABOUT TO OPEN

Detroit Prelate's Death Second in Sacred College Since Pope's —Meeting Begins as Scheduled.

ROME, Oct. 25 (AP)—Cardinal Edward Mooney, archbishop of Detroit, died of a heart ailment today less than an hour before he was to have taken part in the sacred conclave to elect a new Pope. He was 76 years old.

He was the second cardinal to die since the death of Pope Pius XII, Oct. 9.

Cardinal Mooney attended this morning's Mass of the Holy Spirit at St. Peter's Basilica where the princes of the church asked for divine guidance in choosing a new leader of the Roman Catholic church. He appeared well at lunch time. Then he collapsed as he was about to lie down for a rest after lunch.

The Rev. Joseph Tucek, head of the National Catholic Welfare Councilmen's service in Rome, said the Cardinal "must have been excited" because of the impending conclave.

Received Last Rites.

Cardinal Mooney was given the last rites of the church—extreme unction—by his private secretary, Msgr. Joseph Breitenbeck. The Cardinal was pronounced dead at 2:50 p.m., (8:50 a.m., St. Louis time) by Dr. Filippo Rocchi.

The two remaining United States cardinals, Francis Spellman of New York and James Francis McIntyre of Los Angeles, were with him when he died. They had been summoned to his bedside after his attack.

A few moments later, they left, saddened, for the apostolic palace and took their places in the solemn procession to the conclave.

The doors of the conclave area were doubly locked at 5:20 p.m. (11:20 a.m. St. Louis time) and the cardinals began their task of electing a successor to Pius XII. Balloting will not begin until tomorrow (tonight St. Louis time).

Cardinal Mooney died at the pontifical North American College overlooking Rome from Janiculum hill.

Only 53 Cardinals.

His death cut the full number of cardinals of the church to 53. The number had dropped to 54 on Oct. 17 when Cardinal Celso Costantini died during the period of funeral services for Pius XII.

Until recently the United States had four cardinals.

Cardinal Samuel Stritch, archbishop of Chicago, died in Rome May 27 shortly after his arrival to take the important position of pro-prefect of the Vatican's Congregation for the Propagation of the Faith.

Cardinal Eugene Tisserant, French-born dean of the College of Cardinals, celebrated the Mass of the Holy Spirit before the cardinals went into their secret conclave.

As the cardinals—nearly all of them created by Pius XII in two postwar consistories — prayed for guidance, there was word that the process for beatification of the dead Pontiff would be started in the near future.

In an exhortation pronounced by Msgr. Antonio Bacci, the Vatican's Latin expert, the cardinals were urged to elect a Pope "who is a teacher, pastor of souls and father to all people."

Four infirm members were absent from today's Mass. They were Cardinal Thomas Tien, exiled archbishop of Peiping; Cardinal Joseph Ernest Van Roey, 84 years old, of Belgium; Cardinal Georges Grente, 86, of Le Mans, France, and Cardinal Carlos Carmelo de Vasconcellos Motta, 68, of Brazil.

Two members of the College of Cardinals did not come to Rome. They are Cardinal Jo-

PRIVATE GROUP PLANS OFFER TO BUY BARRACKS HOUSING PROJECT

Spokesman Says He Hopes to Submit Proposal to County Housing Authority 'Early Next Week.'

A proposal that the controversial Jefferson Barracks public housing project site be sold to a group of private real estate dealers and investors is to be submitted soon to the St. Louis County Housing Authority, the Post-Dispatch was told today.

Norbert V. Bussmann, a member of the county Land Clearance for Redevelopment Authority, said he would request a meeting with the housing agency "early next week" to transmit the proposition. Bussmann also is president of the Home Builders Association of Greater St. Louis.

He said he was acting on behalf of a group of "interested persons." The group proposes to purchase the $3,025,825 contract for construction of the housing development, repay funds advanced by the Federal Government and buy the 35-acre project site and 50 additional acres of land at Jefferson Barracks owned by the authority. Bussmann said he would have no financial interest in the project.

Members of Group.

The group interested in acquiring the 288-unit proposed housing development is headed by Warson Realty and Development Co., Inc., 9929 Manchester road, Warson Woods. Bussmann said L. Gordon Davis, former chairman of the County Council, and "others whom I do not know" also are interested in the proposal.

F. Rudolph Zoellner, president of the Warson Realty firm, said a group has not yet been organized to undertake the proposition. If the Housing Authority agrees to the proposal, Zoellner said, he would then undertake to organize a group to purchase the project. His concern's principal role in the transaction would be as sales agent for the project buildings, he said.

Bussmann explained that the two-family and four-family structures to be built would be sold upon completion by private developers to the tenants living in the buildings.

Under Veterans Plan.

They would be sold under a "veterans' co-operative low-cost apartment" provision of the FHA mortgage insurance act. Bussmann said that under this plan, tenants could purchase apartments for "little or nothing down" and monthly payments ranging from $45 to $65 under a 40-year mortgage. If not purchased by veterans within 60 days after completion, the buildings could be sold to other tenants or retained for operation by the developers, he added.

Project developers would be authorized a 10 per cent profit on their investment under federal regulations, he said. Since total capital investment under the proposal is estimated at $3,250,000 or slightly more, this represents an anticipated profit of about $325,000.

$1000 an Acre for Site.

Bussmann acknowledged that "substantial" additional profit may accrue from the terms of the land acquisition plan contemplated in the proposal. The group plans to offer $1000 an acre for 85 acres of land owned by the Housing Authority. That is the same price the agency paid the Federal Government for the land.

Since only 35 acres are needed for the housing project, the remainder would be available for other development by the group. Bussmann estimated the "reasonable value" of the land at $4000 an acre, although other smaller tracts in the southern part of the country have sold recently for $8000 an acre or more.

Describing the land acquisition plan as the "key to the whole proposal," Bussmann pointed out that a profitable

'REMOTE HOPE' FOR 81 TRAPPED IN CANADIAN MINE DISASTER

Progress of Rescue Crews in Shaft Heavy With Poisonous Gas Is Called 'Very Slow.'

SPRINGHILL, N. S., Oct. 25 (AP) — Rescue teams today worked their way down a debris-choked mine shaft heavy with poisonous gas toward 81 men trapped and possibly killed by an explosive shift of rock. Twelve others are known dead.

A mine official said there was a very remote hope that some of the trapped miners might be found alive but nothing had been heard since the accident Thursday night to indicate there were more survivors.

Eighty-one other men got out alive after the unexplained earth shift, the most severe in memory in North America's deepest coal mine. Fifteen of the survivors were injured.

Ten bodies have been recovered. One official said two more bodies had been seen by rescue crews and would be brought up later.

Harold Gordon, coal chief for the mine owners, spent hours in the mine shaft and then told newsmen:

"There is a remote hope—very remote—that some men will be alive at the bottom end and the top end of the 13,000-foot level." He said the basis for this hope was an indication that conditions at the two ends were not so bad as elsewhere in the mine.

No Contact With Missing.

Asked if there had been any contact with missing miners that would indicate survivors, Gordon replied: "none."

He said progress of rescue crews "has been rather slow." In the first 30 hours they had advanced only 200 feet in the wrecked area.

The mine extends 14,300 feet at a slant from the pithead to a vertical depth of 4400 feet. Between 50 and 55 men were believed to have been working at the 13,000-foot mark. The two lowest levels of the mine were completely shattered by the earth upheaval, Gordon said.

It was difficult to say what obstacles lay ahead of the rescue crews and therefore difficult to estimate how long it would take to find all the missing men. Working in respirators for protection from the gas, the crews had to clear debris and shore up the shaft as they went.

"It might take a week or longer," Gordon suggested. The company, Dominion Steel & Coal Corp., will continue rescue efforts until everyone is brought up dead or alive, he added.

Gordon said any miners who survived the shock and the poisonous gas might live a week or more but there was no way to judge.

Inspection Report.

An engineer for Dominion Steel who inspected the mine Tuesday—two days before the accident—said he found no signs of unfavorable conditions. He said he had remarked that generally conditions seemed better than usual in the mine, which has been plagued by earth shifts, known as bumps. Six smaller bumps injured 14 men in the mine between mid-March and Sept. 1.

Gordon said bumps occur when pressures above and below the mine shafts build up, then let go. They are common in this soft coal area but usually produce only minor rock and coal falls.

The mine is near a closed shaft in which 39 Springhill miners were killed two years ago. Eighty-eight men came out alive. A disaster committee still helping families of the 39 opened a new fund for families involved in the new disaster. Almost $500,000 in contributions came in after the 1956 explosion.

Canada's highest mine disaster toll was 193 killed at Hillcrest, Alta., in 1914.

U.S. Dependents Evacuated From Fighting Zone in Cuba

50 Women, Children in Nicaro Nickel Plant Area Carried to Safety by Navy.

By LARRY ALLEN

HAVANA, Oct. 25 (AP)—A United States Navy transport carried 50 American women and children to refuge today from fighting between Cuban regulars and rebels around the American-owned nickel plant in Nicaro.

Evacuation of dependents of some 25 Americans working at the nickel plant was ordered by Washington Thursday because the area was controlled by Fidel Castro's rebels. The rebels have kidnaped 52 North American men in the last several months but returned them all unharmed.

Two Cuban warships landed hundreds of troops yesterday west of Nicaro, on the north side of Cuba's eastern tip. The government later claimed complete control of the coastal area after the ships and warplanes supported an operation to drive back rebels controlling the rugged interior.

The fighting delayed the evacuation by launches from the United States transport Kleinsmith, which was backed up by the aircraft carrier Franklin D. Roosevelt.

The transport completed loading just before 8 p.m. and sailed for the United States Navy base at Guantanamo bay, 200 miles by sea around the eastern end of Cuba. The dependents may go on from there to the United States. They are the first of the approximately 2400 Americans in eastern Cuba to be ordered removed.

In a broadcast from his mountain headquarters, Castro issued his fourth call for a nation-wide general revolutionary strike to overthrow President Fulgencio Batista. The first three strikes have failed for lack of public support.

Castro called for a new strike Nov. 3, when presidential elections are scheduled. Constitutional guarantees are suspended in Cuba, and the youthful rebel leader said elections while Batista is in power would be a farce.

Castro ordered rebel forces to fire without warning on all highway and railway transport in the week beginning next Thursday, which covers the election period.

URGES STARTING ON NEXT FRIDAY WHEN SESSIONS OPEN IN GENEVA

U.S. and Britain Are Willing, Eisenhower Says, and He 'Still Has Hopes' for Moscow Accepting.

WASHINGTON, Oct. 25 (AP) —President Eisenhower renewed today his call on Russia to join the United States and Britain in barring all nuclear weapons tests for one year beginning six days hence.

Mr. Eisenhower issued the statement after meeting with Ambassador James J. Wadsworth, head of the American delegation which will negotiate with the Soviets in Geneva on the suspension of nuclear weapons tests and an inspection system to police such a suspension.

The President's statement noted that both Britain and the United States had announced their readiness to stop testing atomic-hydrogen weapons for a year beginning with the start of these negotiations Oct. 31.

It's Up to Russia, He Says.

Mr. Eisenhower, in discussing this problem, said:

"It thus lies with the Soviet Union to decide whether on Oct. 31 all countries which have tested nuclear weapons will have voluntarily suspended testing.

"The United States regrets that the Soviet Union has not accepted the offer of the United States and the United Kingdom, although we still hope that it will do so."

The United States is still conducting its series of nuclear tests in the Nevada desert. No specific date for ending the tests has been announced.

White House press secretary James Hagerty told newsmen the American and British delegations will show up at Geneva for the conference "at the appointed place and the appointed time," expecting the Soviets to send a delegation, too.

Proposal by Russia.

Russia, in a note last month, proposed that the talks be upgraded to the level of foreign ministers. The United States and Britain turned down this suggestion a few days ago but offered to send their foreign ministers later if it would spur an agreement.

Wadsworth, who is special State Department disarmament adviser, said he would leave tomorrow for London to confer with British negotiators for two days prior to the Geneva sessions.

The Geneva conference was agreed to by Russia and the West as a means of translating into reality an earlier East-West agreement that barring nuclear tests with inspection was feasible.

East-West scientists, meeting at Geneva, said last August that such a bar could be enforced by a network of some 180 scientific stations, which could monitor explosions around the globe. The scientists left for the diplomats, however, the task of agreeing on the actual inspection techniques.

West Makes Conditions.

The United States and Britain, in answering Russian demainds, offered last Aug. 22 to suspend tests for a year, any extensions depending on progress made in setting up an inspection system and putting it into effect. The British-American governments also conditioned their bar on the need to make progress in other fields of disarmament also.

Russia has demanded a permanent bar on nuclear testing.

Most American authorities said they expected the Soviets would show up at Geneva to begin negotiations. Some said they were cautiously optimistic, too, over whether the Soviets would accept an inspection system satisfactory to the West.

OTTAWA BLAST CAUSES HEAVY LOSS; 35 HURT

Buildings Wrecked in Center of Canadian City—Damage More Than $2,000,000.

(Picture on Page 3A.)

OTTAWA, Oct. 25 (AP)—A shattering blast wrecked buildings in the heart of Ottawa today, injuring about 35 persons and causing devastation reminiscent of wartime scenes.

There were conflicting reports on deaths. First word was that the explosion — possibly from natural gas or a boiler—had taken several lives. Police said they had no reports of any dead.

Initial estimates listed damage at more than $2,000,000. Windows were blown out for miles in every direction.

Badly damaged by the shock was the nine-story Jackson building, containing Canadian health department and income tax offices. Many other smaller structures were shattered.

Some Reported Trapped.

Police and firemen dug into ruins. An unidentified ambulance driver was quoted as saying some persons were trapped in the rubble of a building owned by Myers Motors Ltd.

The area around the Jackson building was roped off for fear the structure would collapse.

Sporadic small fires broke out. Utilities workers struggled to halt a threat of further explosions or fires from broken gas mains.

Equipment from every fire station in the city was called to the scene. All off-duty firemen were summoned. Ambulances collected the injured.

Authorities said the only thing that prevented huge casualties was the fact that the area was relatively quiet because it was Saturday morning. Few persons were on the streets when the blast came at 8:17 o'clock.

'Sucked Into Store.'

Even so, an ambulance driver said several persons who had been walking along outside a department store were "sucked right into the store" through shattered windows. Some were among the injured.

Also shattered in addition to the Myers Motors building, in which new car models were being displayed, were a hobby shop and a printing store. Houses adjoining the Jackson building were seriously damaged, leaving dozens homeless.

RED CHINA WON'T SHELL QUEMOY ON 'EVEN DATES'

'Ships Should Not Come on Odd Dates'—Peiping Offers to Give Islands Supplies.

TOKYO, Oct. 25 (AP)—Red China today said there will be no bombardment of Quemoy airfield, wharf and beach landing areas on "even dates" so that the people on the offshore islands may get supplies.

The Peiping radio, quoting the Communist National Defense Ministry, said:

"Your ships and aircraft should not come on odd dates. We will not necessarily conduct shelling on odd dates. But you should refrain from coming, to avoid possible losses."

Must Not Use Escorts.

The statement said "our refraining from shelling the airfield, the wharf, the beach and the ships is still conditional on not introducing American escorts. Exception will be taken if there should be escorts."

The Communists ended their self-imposed cease-fire last Monday after a 15-day period.

The Communist "second message to compatriots in Taiwan (Formosa)" was signed by the National Defense Minister, Peng Teh-huai.

The message even offered to send supplies to Quemoy. It said "If there is lack of anything, just say it and we will give it to you. It is time now to turn from foe into friend..."

The message said the action was taken "to facilitate your entrenchment for a long time to come."

Warns Against U.S.

It said "some of you suspect that we want to undermine the unity between your troops and civilians and between your officers and men. No, compatriots! We hope you will strengthen your unity, so as to act in unison in facing the foreigners."

The Defense Minister concluded his message "we only hope that you will not yield to American pressure . . . lose your sovereign rights, and so finally be deprived of a shelter in the world and thrown into the sea. These words of ours

FIRE CHIEF'S CAR PROVES A SIREN FOR JOY RIDERS

The temptation of a big red station wagon with FIRE CHIEF painted on the sides was too much for two 16-year-old boys in Berkeley last night.

They took the vehicle from in front of Fire Chief Hugh Brandiff's home at 6764 St. Olaf drive and went for a "joy ride" that ended when they crashed against two parked automobiles in the Frostwood subdivision.

The boys ran, but bystanders caught one and the other was arrested later in Ferguson. They were held for juvenile authorities.

Chief Brandriff had left the keys in the station wagon, confident that no one would steal the eye-catching vehicle. The machine was damaged considerably when the youthful driver lost control and it hit the parked cars in the 6800 block of Berkridge court.

DAYLIGHT SAVING TIME TO END AT 2 A.M. TOMORROW

Residents of St. Louis and St. Louis county were reminded today that standard time will become effective here at 2 a.m. tomorrow and that clocks should be turned back one hour.

Adjustments will be made by railroads, bus lines, radio and television stations now observing "fast time" to conform with standard time.

Termination of daylight saving time for this year also will mean that taverns must close at 1:30 a.m. Under daylight taving time they may remain open on week nights until 2:30 a.m. because the state is on Central Standard Time.

DEATH OF CARDINAL MOONEY GREAT LOSS, SAYS PRESIDENT

He Influenced All Believers in Brotherhood of Man, Asserts Eisenhower.

WASHINGTON, Oct. 25 (AP) —President Eisenhower said today the United States and the world lost an outstanding servant of God in the death of Cardinal Edward Mooney, archbishop of Detroit.

Cardinal Mooney "was always a tremendous force for good," the President said. "His influence was not confined to his church alone. It extended to all who believed in the spiritual worth of the individual and in the brotherhood of man.

"He was my warm personal friend and I, like many others in our nation, shall miss him very much."

Road To Matrimony Paved.

LONDON, Oct. 25 (UPI)—Chivalry is not dead. Workmen paved the road outside Sylvia Bradley's home in a new housing development so she could leave today to get married without getting her wedding dress muddy.

HENNINGS ILL, PUT IN HOSPITAL IN KANSAS CITY

Suffering From Respiratory Congestion — Condition Termed Satisfactory.

By a Special Correspondent of the Post-Dispatch.

KANSAS CITY, Oct. 25—United States Senator Thomas C. Hennings Jr. (Dem.), Missouri, was in Downtown Hospital here today with an illness diagnosed as congestion of the respiratory system.

Hennings became ill at a Democratic campaign luncheon in his honor here yesterday. He was scheduled to speak at the luncheon, but left after being there only a few minutes and returned to his hotel.

Dr. D. M. Nigro, who was called to examine the Senator, said Hennings had a fever and congestion of the respiratory system. Dr. Nigro said Hennings's condition was "satisfactory," but recommended he enter the hospital to ward off complications.

Members of Hennings's party reported the doctor told them the Senator had a temperature of "more than 102 degrees" and was on the verge of developing pneumonia. They said Hennings will remain in the hospital "for several days."

In addition to the respiratory congestion, Dr. Nigro said Hennings is suffering from an eye infection. He said an eye specialist will examine Hennings today.

Last December Hennings spent several days in a New York hospital recovering from a mild cerebral spasm he suffered while presiding at a Senate subcommittee hearing on juvenile delinquency. He spent several days in a Washington hospital last April recovering from an infection in his left eye.

Hennings had been scheduled to speak at Harrisonville (Mo.) at noon today on a campaign tour of the state. All speeches he was scheduled to make on the tour have been canceled, the Senator's office announced.

His schedule called for talks at Democratic rallies at Marshall Monday night, Moberly Tuesday night and Carthage Wednesday night.

Seller a Buyer.

FREMONT, Mich., Oct. 25 (UPI)—Auctioneer John Witte Jr. ended up buying a house he was selling when no one topped his opening bil of $500 yesterday.

Postmen to Be Sent to Routes By Cab, Its Cheaper Than Bus

DES MOINES, Ia., Oct. 25 (UPI) — Acting Postmaster David Crenshaw has announced plans to send the city's postmen to their jobs by taxicab every day on grounds that it is cheaper than bus.

Crenshaw said yesterday the results of a pilot experiment indicated the Des Moines post office would save almost $50,000 each year.

East taxicab will carry seven mail carriers to their routes in the morning, and return them in the evening. City bus fare is 20 cents per passenger, but Crenshaw said the taxicab pool would average out to 17 cents a man.

Charles Cannot, president of Local 441 of the Amalgamated Association of Street, Electric Railway and Motor Coach Employes of America, called the move unfair competition. He contends that a taxicab which covers the same route every day is operating as a bus without a city franchise.

Crenshaw said the courts could settle that legal problem. Meanwhile, he intended to go through wtih the plan.

Dr. Einstein and Kim Novak Win Popularity Poll at World's Fair

The New York Herald Tribune-Post-Dispatch Special Dispatch.

NEW YORK, Oct. 25 — Harvard University, the late Dr. Albert Einstein and Kim Novak were among the winners of an international popularity poll conducted at the Brussels world's fair, it was learned today.

The poll was taken in six voting booths set up at the suggestion of President Eisenhower to demonstrate the secret ballot in this country. More than 200,000 "votes" were registered, mostly by foreigners. The fair closed Oct. 19.

The office of United States Commissioner Howard S. Cullman revealed following results:

Favorite university: Harvard—32,194; Massachusetts Institute of Technology—14,791; University of Chicago—12,542; Columbia—12,028; University of California—11,767; Yale—10,789; Princeton—9083; Stanford—3367; Michigan—3188; Middlebury College in Vermont—2258.

Most important immigrant to the United States: Albert Einstein—49,632. Second: The late Thomas Mann, writer—17,548.

Favorite American statesman: Abraham Lincoln—42,350; Benjamin Franklin — 25,193; George Washington — 23,000; Franklin D. Roosevelt—15,694.

Favorite author: Ernest Hemingway — 38,822; second: Mark Twain—21,310.

Favorite American actress: Kim Novak—32,787. Second: Marilyn Monroe—16,282.

Favorite musician: Louis Armstrong — 45,674. Second: Benny Goodman—28,745.

Favorite city: New York—27,269. Second: San Francisco—26,523.

Favorite vacation spot: Hawaii—45,595. Second: Florida—31,643.

POLICE BREAK UP GAMBLING RACKET AT U. OF MICHIGAN

ANN ARBOR, Mich., Oct. 25 (AP)—Police announced today the breakup of a football gambling racket on the University of Michigan campus which took in upward of $10,000 weekly from students.

Three students are to be charged formally Monday with conspiracy to violate state gaming laws, police said.

An investigation reportedly has been going on for four weeks. Campus outsiders were said to be involved. Police, however, declined comment on this.

Participating in the inquiry were city police, state police and county sheriff's men. University officials declined comment.

Police said the gambling involved the so-called football "spot cards." The "spot" is the number of points by which a team is favored for a game.

NO WONDER IT'S CUT SHORT

HONOLULU, Oct. 25 (AP)—When Gwendolyn Kekino applied for a job at Hawaiian Pineapple Co., she produced a birth certificate listing her middle name as: "Kuuleikailialohaopiilaniwailaukekoaulumahiehiekealaoonaonaopiikea."

Her family uses only the last six letters of the 65. They call her "Piikea."

TWO SHIPS COLLIDE BUT IT'S A LAUGHING MATTER

Copyright, 1958, London Observer

PORTSMOUTH, England, Oct. 25—A recent minor collision in NATO maneuvers of British warships has given rise to a story sweeping the British fleet.

Immediately following the accident a flag signal went up on the squadron commander's ship addressed to the skipper of the frigate involved, saying: "What are you going to do now?"

A minute or two later came the reply back from the frigate: "Buy a small farm, sir."

LAST U.S. FORCES LEAVE LEBANON; DEPARTURE IS HARDLY NOTICED

Ships and Planes Carry Rear Guard Away — A Few Officers Stay Behind to Settle Claims.

BEIRUT, Oct. 25 (UPI)—The last of the United States combat troops who landed here in July left by ship and plane today. A handful of civil affairs officers remained behind to settle final claims.

Most of the American "real guards" left at 9 a.m. in a six-ship convoy led by the amphibious force flagship Pocono, command ship of the operation. Brig. Gen. David S. Gray and the staff of the Twenty-fourth Airborne Brigade left by air half an hour later.

Maj. Gen. Paul Adams, commander of the ground forces in the landing, left by air with his staff at noon. Two dozen officers, unarmed and wearing civilian clothes, stayed to settle the last details.

The American departure went virtually unnoticed in Beirut. Neither of the city's two major foreign language dailies, L'Orient and the Daily Star, mentioned it on their front pages.

A few housewives, hanging out clothes on rooftops near the waterfront, waved as the convoy carrying the Third Battalion of the Sixth Marine Regiment steamed out to sea.

The departure of the convoy left Beirut harbor completely free of United States warships for the first time since July 15, when American soldiers and marines landed to protect Lebanon's pro-Western government against possible attack.

In all, the United States sent about 14,000 service men in response to an appeal from President Camille Chamoun, who has since been voted out of office.

Nine American soldiers were killed while the United States forces were here, but most of the deaths were accidental. Only one was killed by what may have been enemy fire.

The troop withdrawal began some weeks ago, so only a comparative handful of troops remained to leave today. The final withdrawal was nearly a week ahead of schedule. It had been promised by Oct. 31.

Quemoy

are well-intentioned and bear no ill will. You will come to understand them by and by."

TIME FOR REVOLT NEAR, CHIANG SAYS

By SPENCER MOOSA

TAIPEI, Formosa, Oct. 25 (AP)—President Chiang Kai-shek said today the time for a revolt in Red China is ripening. When it comes, he added, its success would be expedited from outside.

Chiang apparently implied that his own Nationalist forces would intervene in a Hungarian-type uprising. But he carefully avoided saying the Nationalists would counter-attack against the Communists who threw them off the mainland in 1949.

In a joint communique with United States Secretary of State John Foster Dulles on Thursday, Chiang renounced the use of force as the principal means of returning to the mainland. This renunciation was reported sought by Dulles to allay fears of the United States's allies that Chiang would drag America into war with Red China, possibly touching off a world war.

Exception in Case of Revolt.

When the communique was issued, however, Nationalist sources indicated the bar on force did not apply in case of a revolt. The Nationalists long have contended a revolt would come and would return them to control of the mainland.

Dulles said in Washington Sept. 30 it was "hypothetical and problematical" whether Chiang would be asked to head any regime which might come out of a mainland revolt. This and other remarks by Dulles angered Chiang and led to their three-day meeting this week.

Chiang said today people on the Communist mainland are living like slaves and longing for deliverance by the Chinese Nationalists. A revolt is inevitable and it unquestionably would succeed, he declared.

The Generalissimo, who will celebrate his 72nd birthday Friday, made his remarks in a statement on the thirteenth anniversary of China's recovery of Formosa from Japan after World War II.

Cardinals Seeking Divine Guidance

—Associated Press Radiophoto.

Cardinals of the Roman Catholic Church are seated in opposite rows in front of the altar in St. Peter's Basilica while seeking divine guidance today before being closeted for election of a new pope.

Meanwhile, the commander of United States Army forces on Formosa announced that a number of the most deadly United States antiaircraft missile, the Nike-Hercules, are now ready to shoot down any attacking Communist planes. Maj. Gen. Leander L. Doan added that the United States missile crews who arrived 17 days ago "are on alert around the clock."

The Communist bombardment of the Quemoy islands continued. The Nationalist Defense Ministry said the shelling of the offshore islands was light. The ministry claimed counterfire since the Communists broke their cease-fire Monday had knocked out 51 Red guns.

Correspondent David Lancashire on Quemoy reported some of today's shells hit within sight of the Quemoy air strip without stopping two Nationalist transport planes.

One brought Gen. Wang Shuming, chief of the Nationalist general staff, to Quemoy and returned to Formosa empty. The second evacuated seven wounded soldiers and two families from the battered island.

No Pressure for Convoys.

The top American commander in Formosa said today there is no immediate military need for United States warships to resume convoying Nationalist supplies to Quemoy.

"Of course I would order the destroyers back to convoy if the Chinese (Nationalists) asked and the military need arose," added V. Adm. Roland N. Smoot, Taiwan (Formosa) defense commander.

He said in an interview Quemoy is now so well stocked with ammunition and supplies that "nobody is putting on any pressure" to resume United States convoys.

TALK OF BOOSTING U.S. AID TO CHIANG

By JOHN M. HIGHTOWER

WASHINGTON, Oct. 25 (AP) — Possible delivery of more modern arms to Nationalist China is being discussed by United States officials as a means of strengthening anti-Communist forces in the Formosa area.

The result may be an expanded military aid program for the Nationalists. No decisions have been made, however.

Some authorities estimated that, depending on what military experts decided was necessary, the cost of such an undertaking could run from a few hundred millions of dollars to more than a billion.

The question of modernizing and strengthening President Chiang Kai-shek's forces with newer American weapons has been linked in recent days with the prospect that Chiang may be willing to reduce the size of his forces on the offshore islands near the Communist mainland.

Funds Already Strained.

One difficulty in working out any expanded arms aid program for the Nationalists is the limitation of funds available for foreign military assistance.

These funds already have been strained to pour ammunition, heavy guns and other supplies into the Quemoy islands to enable the Nationalists to stand firm against the Chinese Communist bombardments that began Aug. 23.

The cost of this special effort is estimated by some authorities at $300,000,000 to date. There is a possibility the Administration will have to go to Congress next session with a request for supplemental funds.

In the last session, President Eisenhower got an appropriation of $1,500,000,000 for foreign military aid out of a total mutual security funds of $3,300,000,000.

Reported Appeals to Chiang.

In separate visits to Formosa, Secretary of State John Foster Dulles and Secretary of Defense Neil McElroy are reported to have urged Chiang to make troop reductions on the offshore islands to make their defenses more efficient.

News dispatches from Taipei said Chiang had conditionally agreed to cut his offshore island strength of more than 100,000 men by 15,000 or 20,000 troops. His conditions were that the Communists should stop their attacks and that the United States should help increase the fire power of the troops remaining on the islands.

These reports have lacked official confirmation here. Privately, authorities say there is no doubt that Dulles did advocate the view that for purely military purposes Chiang should regroup his forces and concentrate more of his manpower on Formosa.

Kuwait's Ruler in Baghdad.

KUWAIT, Oct. 25 (AP)—Sheik Abdullah, ruler of oil-rich Kuwait, flew to Baghdad today for a five-day visit. He is expected to negotiate on a long-shelved scheme to irrigate barren Kuwait with Iraqi waters.

Cardinal Dies

Continued From Page One.

seph Mindszenty, in refuge in the United States Embassy in Hungary, and Cardinal Aloysius Stepinac, sick and confined to his native village in Yugoslavia by the Communist authorities.

With bowed heads, the cardinals listened to Msgr. Bacci's exhortation that underlined the importance of their task of choosing the 262nd Pontiff.

"It is not enough," he said, "that the Pontiff be gifted, that he knows human and divine sciences and that he have explored and experimented the subtle reasons of diplomacy and politics."

Saintly Pope Needed.

"That which is above all needed is a saintly Pope, because a saintly Pope can obtain from God even that which natural gifts do not give," he added.

The word "saint" was sometimes applied to the late Pius XII. The Italian press, including Rome's independent Messaggero, recalled that the Jesuit orator, Father Rotondi, in a funeral oration for Pius described him as a saint. The process of beatification, said Messaggero, is expected to begin soon for Pius XII.

Msgr. Bacci is Vatican secretary of briefs. Under centuries-old conclave procedure, as amended by the late Pius XII, it is his duty to exhort the princes of the church to choose a capable pastor, and to do so in shortest possible time and with the greatest zeal.

"The new vicar of Christ," Msgr. Bacci said, "should be a bridge between heaven and the earth, summoning wrongdoers and the errant onto the straight road and urging the good to even greater perfection.

"He should be a bridge between the social classes, a bridge between nations, even between those who reject, cast away and persecute Christian religion."

Spiritual Fortitude.

The church, Msgr. Bacci said, needs a Pope with spiritual fortitude, charity and indomitable courage.

"He will have to be a teacher to all, ready to uncover and condemn errors from wherever they come.

"He will have to be a pastor of souls. He will have to bring together in one embrace the Western and Eastern churches.

"He will also have to be a father. When one is called to the supreme pontificate he no longer belongs to himself nor to a single people but to all peoples.

"His heart, inflamed with love, will have to beat particularly tenderly, especially for peoples oppressed by an absolute, tyrannical and persecuting power and also for those social classes which find themselves still in such grave circumstances and misery that not even with the sweat of their brows can they obtain for themselves and their families sufficient food and hospitable shelter. He will have to take to his heart, even like Jesus Christ, the cause of the poor and distressed.

"The rights of human labor, which already have been stated solemnly in encyclicals and other documents, will have to be certainly interpreted by him with every means at his disposal. It could be a dangerous thing not to translate into full practice the social doctrine of the church."

Until the new Pope is chosen, the cardinals will be locked and barricaded within the quadrangle formed by the Sistine Chapel — where the polling takes place—and the nearby Vatican apartments. No one can come in or go out under normal circumstances.

Two assistants entered the conclave with each cardinal, either two priests or one priest and one layman.

After the opening ritual outsiders were ushered out of the conclave area and it was searched to assure that no one lurked in hiding.

Then the cardinals, sitting side by side beneath purple cloth canopies in the fifteenth century chapel, swore to be bound by the constitution establishing the rules for the election.

"We do promise, declare and swear," they reepated in unison, "that whichever of us, by the will of God, shall be elected Roman Pontiff, he shall never cease to defend and vigorously assert all rights of the Sovereign Pontiff, including the temporal rights and those of his temporal sovereignty as well as the independence of the Holy See."

It is planned to have two ballots each morning and two each afternoon until a Pope is elected. The cardinals probably will elect one of their number, most likely an Italian.

Although it has not happened for centuries, they could elect a prelate who is not a cardinal. It has been more than 400 years since a non-Italian was Pope.

In striking contrast to previous conclaves which were dominated by Italian cardinals, there are only 17 Italians at this conclave.

Only one non-Italian is mentioned prominently as a possible candidate. He is Cardinal Gregory Peter Agagianian, bearded 63-year-old Patriach of Cilicia of the Armenians, and pro-prefect of the Congregation for Propagation of the Faith.

Among Italians mentioned are Cardinal Giacomo Lercaro, 67-year-old (on Oct. 28) archbishop of Bologna; Genoa's Cardinal Giuseppe Siri, the youngest of all the cardinals at 52; Cardinal Ernesto Ruffini, 70, archbishop of Palermo, and Cardinal Angelo Giuseppe Roncalli, 77, patriarch of Venice.

Also considered papal timber is Archbishop Giovanni Battista Montini of Milan, 61, who declined a cardinal's hat in 1953 because he wanted to continue in the post he held then as pro-secretary of state at the Vatican.

The United States State Department ruled yesterday that American Cardinals could participate in the election without jeopardizing their citizenship.

Glenn L. Archer, executive director of Protestants and Other Americans United for Separation of Church and State, had cited a section of the 1952 Immigration Act which says an American taking part in a political election in a foreign state forfeits his citizenship.

The United States, the department said, does not extend formal recognition to the papal state or its government and therefore has no diplomatic relations with it.

"In the department's view," Archer was told, "the real significance of the election of a Pope is religious—the fact that the individual elected becomes the Bishop of Rome and titular head of the Catholic Church—and it is only incidental that by virtue of his office as head of the Catholic Church the Pope is also head of the state of Vatican City.

"Accordingly, the department is of the view that the papal election is not a 'political election' within the meaning of the above cited statute."

ADENAUER READY TO GO TO RUSSIA ON EAST GERMANY

BONN, Oct. 25 (AP)—Chancellor Adenauer says he is ready to go to Moscow to talk to Premier Khrushchev about easing the hardships of 17,000,000 people in Communist East Germany.

Adenauer expressed this willingness in an interview published today by an Augsburg newspaper, Schwaebische Landeszeitung. He made it clear he is not asking for the talks. "When Moscow lets it be known that it wants to talk with me about this human problem. . . . I would do so," he said.

The 82-year-old chief executive has been hammering away for years at the theme that East Germans are suffering under the Communists. The theme has been given greater significance recently with the sudden rush of doctors, scientists and educators to West Germany.

The Russians have taken the position that East Germany is a sovereign state and that they have no intention of interfering in the internal affairs of East Germany.

Teachers Play Hooky.

HARTFORD, Conn., Oct. 25 (UPI)—Truant officers may be preparing extensive reports to school officials today—but not on the pupils. The state released its 16,000 teachers yesterday to attend conventions, but only 5000 showed up.

U.S. IS WARNED AGAINST ATOMIC 'KILOWATT RACE'

Missouri U. Panel Urges, Instead, a Program for Economic Nuclear Power.

By WILLIAM K. WYANT JR.
A Staff Correspondent of the Post-Dispatch.

COLUMBIA, Mo., Oct. 25—The United States should avoid getting into an atomic power "kilowatt race" with Britain and Russia, even though those nations will be way ahead in capacity to produce electricity from the atom by 1962, members of a Missouri University conference said today.

In four years, it was estimated at the Mid-America "atoms for power" assembly, the United States will have a total atomic power capacity of 1,000,000 kilowatts, Britain will have 5,500,000 and Russia 2,200,000 kilowatts.

Samuel Untermyer, engineering consultant at General Electric's Vallecitos Atomic Laboratory in California, joined other spokesmen for the 60 assembly members in saying that the United States should not measure its prograss in atomic power development by the kilowatt yardstick.

This nation, is was held, does not have urgent need for additional electricity sources at this time and therefore can, and should, follow a diversified program with the objective of finding the most efficient means of producing atomic power.

Diversity Is Noted.

Panelists pointed out that the American effort has the greatest diversity, in terms of the types of reactors that are being tried out, and that private industry in this country has committed $500,000,000 to public power, a development no other nation can approach.

The perennial feud between private versus public power advocates came to the surface frequently in yesterday's three panel sessions. Included in the conference are scientists, government personnel, utilities executives and industrialists, public power officials, ministers and labor leaders.

Although it was conceded that kilowatts alone should not be the goal of the Atomic Energy Commission program, a state of "unanimous disagreement" was reported on the question of whether the Government should build large-scale atomic power plants.

One conference group, headed by Ralph Deuster of Babcock & Wilcox Co., Lynchburg, Va., suggested that money could be saved in the present hit-or-miss stage by building just the reactors without power plant.

Provocative Question.

"It is apparent," this group concluded, "that we are spending money to build large plants that do not produce power economically, our engineering profession is in a position to determine the efficiencies of power generation when given a fixed steam temperature and pressure, regardless of the source of steam."

"Therefore why, if we are sincerely interested in the development of nuclear energy, don't we confine our efforts to the reactor and its steam producing abilities instead of tying it up as a power production operation?"

Untermyer, who attended the recent international atomic conference at Geneva, Switzerland, said that in terms of atomic power plants now under construction, the Russians will have the lead over the United States not only in kilowatt capacity but in the steam pressure and thermal efficiency of their plants.

"I think we can agree the Russians are not standing still," he said.

Earlier yesterday, an American engineer told a conference group that the American atomic power program was a little ahead of Britain's in technology, but probably a little behind Russia's, "if you believe what the Russians say."

Report on Progress.

Untermyer reported that the 180,000 kilowatt Dresden power station near Chicago, which General Electric is building for the Commonwealth Edison Co., is six months ahead of schedule and "going very well."

The $45,000,000 Dresden installation is one of two atomic power plants now being built by private capital. Commonwealth Edison is putting up $30,000,000 of the cost of a conventional plant, and is sharing the other $15,000,000 cost with Nuclear Power Group, Inc., a combine of seven utilities including Union Electric Co. of St. Louis.

In addition, there is the $90,000,000 privately financed Consolidated Edison Co., project at Indian Point, N.Y. Both the Dresden and Indian Point plants are expected to begin producing power in 1960.

The assembly here, sponsored by the university and an organization called the American Assembly, which encourages discussion of important public issues, will end tomorrow. Harold E. Gove of St. Louis, staff engineer for Union Electric, is assembly director.

George Edward Moore Dies.

CAMBRDGE, England, Oct. 25 (AP)—The death of Prof. George Edward Moore, who was credited with influencing British and American philosophical thought in the early part of the century, was announced last night. He was a professor of philosophy at Cambridge University from 1925 until retirement in 1939 and had lectured at several United States universities. He was 84 years old.

Cardinal Mooney Was Friend Of Unions, Believed in Schools

Late Detroit Prelate Had Studied and Worked in Rome — First and Only Pastorate Lasted 5 Months.

DETROIT, Oct. 25 (UPI) — Cardinal Edward Mooney, who died at the Vatican today, had received his doctorate degrees in Rome and served for several years as spiritual director of the North American College here.

Death came in familiar surroundings for the 76-year-old cardinal. He was one of a small group of brilliant seminarians sent to Rome for theological training, and he had lived in the city and visited it many times.

A native of Mt. Savage, Md., Cardinal Mooney began his studies for the priesthood at St. Charles College, Ellicott City, Md., and St. Mary's Seminary at Baltimore.

He entered the North American College in Rome in 1905 and was ordained a priest in 1909. His family had moved to Youngstown, O., when he was 5. He returned to his home diocese of Cleveland after his ordination and was professor of dogmatic theory at St. Mary's Seminary.

His Only Pastorate.

He was assigned to head the Cathedral Latin School at Cleveland in 1916 and in August 1922 he received his first and only parochial assignment as pastor of St. Patrick's church in Youngstown.

That assignment lasted less than six months. In January 1923, he became spiritual director of the college in Rome.

On Jan. 8, 1926, he was named titular archbishop of Irenopolis and apostolic delegate to India. He served in India for five years and then was sent to Japan in a similar capacity for two years.

He was appointed bishop of the diocese of Rochester, N.Y., on Aug. 28, 1933, and received his appointment as archbishop of Detroit from Pope Pius XI on June 1, 1937.

His rise in the church was climaxed on Dec. 23, 1945, when he was designated a cardinal.

At the time he became archbishop of Detroit, organized labor was one of the most controversial subjects in his diocese. He became known almost immediately as a friend of organized labor and was renowned as one of the outstanding liberals of the church.

He said "without neglecting others, we must give special thought to the problems of the worker."

Cardinal Mooney was a strong believer in the maintenance of schools by his church. He said Catholics should continue to build and maintain their own schools because public education insofar as it ignores religion is "incomplete and inadequate."

Under his leadership, the archdiocesan development fund became the greatest church-sponsored source of funds in Detroit's history. Funds have been used to provide a home for senior citizens in Detroit, an industrial school for boys throughout the state, a seminary where student priests from five dioceses in Michigan receive final theological training, a home for retarded girls and the construction of 75 new parishes since World War II.

Father Coughlin.

Cardinal Mooney urged active promotion of sound measures of social reform to combat Communism. One of the first matters to confront him as the new archbishop of Detroit in 1937 was the outspoken parish priest and radio broadcaster, the Rev. Charles E. Coughlin.

Father Coughlin, whose parish was in Royal Oak, Mich., spoke out on economic and political questions in the United States, causing widespread controversy. When he criticized President Roosevelt's Washington appointments and the CIO, Archbishop Mooney let it be known that Father Coughlin's opinions did not reflect the attitude of the church.

He said Father Coughlin had uttered "unfortunate words" and subsequently Father Coughlin canceled his broadcasts.

During his school days, Cardinal Mooney was known as a better than average athlete. Golf was one of his favorite sports. He suffered a stroke in April 1946, but returned to his strenuous work schedule in a few months and relaxed on the golf course.

RUSSIAN PIANIST ASHKENAZY MAKES NEW YORK DEBUT

NEW YORK, Oct. 25 (AP)—Vladimir Ashkenazy, 21-year-old Russian pianist, made his New York debut last night in Carnegie Hall and was warmly received by critics and a capacity audience. He played selections by Rachmaninoff, Chopin, Liszt, Brahms and Prokofieff.

Ashkenazy, winner of first prize at the Brussels international contest two years ago, made his American debut in Washington, D. C., with the National Symphony Orchestra on Oct. 14.

Nike Battalion Operational.

HONOLULU, Oct. 25 (AP)—The Nike Hercules missile battalion sent to reinforce Formosa's anti-aircraft defenses became operational yesterday, Gen. I. D. White, Pacific army commander, made the report on his return to his Hawaii headquarters from a three-day visit to the nationalist Chinese island.

ALGERIA REBELS TURN DOWN PLAN FOR CEASE-FIRE

De Gaulle's Negotiation Proposal Rejected — Nationalist Counter-proposal.

CAIRO, Oct. 25 (AP)—The Algerian provinsional government today rejected French Premier De Gaulle's terms to negotiate a cease-fire in Algeria.

It repeated its readiness to meet representatives of the French government to negotiate a "true solution of the whole Algerian problem."

The statement was issued by Premier Ferhat Abbas in the name of his government. He proposed the meeting be held in a neutral country.

De Gaulle on Thursday invited nationalist rebels to come to Paris to talk about a cease-fire. He rejected any political discussion.

He said the rebels could lay down their arms using white flags and contacts with commanders on the scene. He promised rebel leaders safe conduct to France.

RIFT REPORTED BETWEEN SINATRA AND LADY BEATTY

LONDON, Oct. 25 (AP)—Lady Beatty, the American-born beauty Frank Sinatra has been squiring around London, flew to Switzerland yesterday. There were reports they had quarreled.

Sinatra came here last weekend and London papers have predicted that he and the 36-year-old Lady Beatty will be married.

Thursday night they went to a Mayfair night club with a party of movie people. Sinatra leaned across the table and sang "I Like New York in June" to her.

But later, according to people sitting nearby, the atmosphere at the table became strained. Sinatra, they said, seemed "very terse." An argument was said to have taken place as the party departed.

A few hours afterward Lady Beatty caught a plane for Zurich. Sinatra left by plane later in the day—reportedly headed for Switzerland, too.

After the singer and Lady Beatty had attended a fashionable party given by Lady Northampton, Sinatra was said to have complained of the publicity their friendship was getting.

Eartha Kitt to Palace.

HOLLYWOOD, Oct. 25 (AP)—Singer Eartha Kitt says she's looking forward to giving a command performance before Queen Elizabeth next month at Buckingham Palace. She received the invitation yesterday.

NIXON REPORTS G.O.P. STRONGER IN FARM BELT THAN IN 1954

Says Growers Are Much Happier Than They Were and 'the Case We Have to Sell Is Better.'

SIOUX FALLS, S.D., Oct. 25 (AP)—Vice President Richard M. Nixon asserts the Republicans have a better chance of carrying the Farm Belt than in 1954 when Midwestern losses cost them control of Congress.

After a campaign tour in Wisconsin yesterday, Nixon told reporters that from reports he gathered "the farmers are much happier than they were in 1954."

"Republican chances look better this year than they did then," he said. "The case we have to sell in the Farm Belt is better this time."

Nixon mentioned cattle and hog prices, as well as what he called the stabilized returns on cheese, as indications that farm income is better than it was four years ago.

However, the mere fact that the Vice President came to South Dakota to campaign and to speak in Lincoln, Nebr., tonight indicated that the Republicans in those normally G.O.P. states are worried about the outcome of next month's balloting.

Situation in Wisconsin.

Observers also challenged Nixon's optimistic estimates of Republican prospects in Wisconsin, where the Vice President made three stops yesterday.

Nixon said the race between G.O.P. candidate Roland Steinle and Democratic Senator William Proxmire is a close one.

In Madison, Oshkosh and Eau Claire, the consensus of political workers and observers was that Proxmire holds a substantial edge in a race where the Republicans have contended they have their best chance of upsetting a Democratic Senator.

Nixon took occasion in a press conference to cut Midwestern Republicans loose from the necessity of supporting the farm policies of Secretary of Agriculture Ezra Taft Benson.

Told that Benson had said he would not campaign for Republican Senator Edward J. Thye of Minnesota because Thye does not back the Administration's farm policies, Nixon said he could not believe that Benson had indicated he was not for Thye.

Nixon to Talk for Thye.

In any event, Nixon said that Thye has the right to determine who goes into Minnesota to campaign for him. Nixon himself will be in the state Sunday and part of Monday to speak for Thye.

Benson, who was in La Crosse, Wis., branded as "a vicious distortion of the truth" the reports that he would not support Thye's bid for re-election.

"Admittedly Senator Thye and I have differed at times on some matters of farm policy and legislation," Benson told reporters last night. "However, these have been honest differences and in no way influence my high regard for him as an outstanding Senator—as a man who fights for what he believes is right.

"I am privileged to recommend Republican Senator Edward Thye to the voters of Minnesota as a statesman and a legislator who has served his constituents in a most commendable manner."

Benson, speaking in Wisconsin today, said he would not visit Minnesota on his current tour because of lack of time.

The Vice President said that although Thye had taken "an independent position on farm policy" the Minnesota Senator had acted in "a statesmanlike manner" and was "one of the most articulate spokesmen" for the farmers of his state.

"I am certainly for him," Nixon said.

Comment on Rockefeller.

In an unusual press conference aboard the chartered plane carrying him from state to state, Nixon practically invited Nelson Rockefeller to fight it out with him for the nomination—if Rockefeller is elected Governor of New York.

Rockefeller himself said in New York yesterday, after a breakfast with the Vice President, he has "no interest in the presidential nomination."

Nixon, who is obviously driving for first place on the 1960 ticket, indicated he thinks Rockefeller might change his mind if he becomes Governor.

Adopting an air of the-more-the-merrier, Nixon volunteered that President Eisenhower had told him in 1955 that the President wanted to develop more presidential timber within the party.

Nixon maintained, as Rockefeller had after their meeting in New York, that there is no rift between them. He said he supports Rockefeller's course of campaigning on state, rather than national, issues.

There had been some reports that Rockefeller was unenthusiastic about Nixon's campaigning in New York. Rockefeller said this was "bunk." Nixon called it "flap."

(The New York Times said that when he campaigned in Madison six college-age pickets paraded with signs at the foot of the state house steps while he spoke from the top step.

(Their signs said such things as: "Maine wind blows cold—Checkers needs a new cloth coat" and "Avoid the issues, Dick—They can't help your party" and "Bill Knowland needs you — Bill Proxmire doesn't."

(Nixon took note of them early in his speech and roused a cheer when he said he had been heckled by experts in South America." He said he was glad they had come to show their disagreement. "It's in the great tradition of American politics.")

In an address before about 2000 persons in Eau Claire last night, Nixon said Republican chances all over the country are looking up.

Nixon said the situation is the reverse of that which prevailed in 1948 when the Republicans thought they had the election won but lost it in the last three weeks.

"This could happen to the Democrats this year," he said. "I do not mean to say the election is won now, but I do say we are on the upgrade and they are on the downgrade. If we can keep the pressure on we will win on election day."

Benson on Reuther.

By United Press International.

In a speech at Alma, Wis., today, Benson said, "Our people do not want Walter Reuther (president of the United Auto Workers) controlling the next Congress and naming the next President," he said. "Our people do not want widespread corruption and a return to government by cronyism."

Benson also credited the Eisenhower Administration for ending the (Korean) war referred to by the previous Administration as a 'police action,'" and for dealing firmly with "Communist and Communist philosophies."

"There are no Lee Pressmans in the Department of Agriculture, no Alger Hisses, no Harry Dexter Whites in high appointive posts in our Federal Government today. There has been no stealing away of our atomic secrets," Benson said.

The Eisenhower Administration has "kept the peace without surrendering principle or territory," Benson said. "By contrast, international Communism made its greatest gain under New Deal-Fair Deal administrations."

Changing Styles.

WINNIPEG (AP)—The stone and metal gates erected at the entrance to the University of Manitoba in 1912 have been taken down because they are too narrow for modern vehicles. Dr. H. H. Saunderson, university president, said only one car could pass through at a time.

Missouri-Illinois Forecasts

Illinois: Partly cloudy in north and fair in south tonight; partly cloudy and little change in temperature tomorrow; low tonight 38 to 46; high tomorrow 56 to 64.

After Blast in Canadian Capital

—Associated Press Wirephoto.

Debris from wrecked buildings fills street following explosion which rocked business district at Ottawa today.

HURT WHEN AUTO IS STRUCK, FALLS INTO PARK CANAL

Driver of Sideswiped Car in Forest Park Says Other Motorist Went On.

Alphonse DiMercurio, a waiter, was injured seriously early today when his automobile was sideswiped by another automobile and landed on its side in a canal at Theater and Grand drives, in Forest Park. The driver of the second machine failed to stop.

Thomas Petrone, 326 North Euclid avenue, riding with DiMercurio, told police they were driving east in Theater drive at 6:45 a.m. and were sideswiped by the other car at the junction with Grand drive.

DiMercurio's machine swerved across the north curb, struck a tree and turned over on its side in the shallow water of the canal bordering the drive.

Petrone smashed a window and crawled out, and dragged DiMercurio from the car. A passing motorist took both men to Deaconess Hospital.

DiMercurio, 25 years old, is in serious condition with a fractured jaw and a possible fractured vertebra. He lives at 6229A Columbia avenue. Petrone, 21 years old, was treated for a lacerated hand.

Barracks

Continued From Page One.

balance is needed on the purchase to offset the group's obligation to repay federal funds advanced for the project. These amount to $154,698.

Possible Land Profit.

Pressed as to whether the additional 50 acres would not offer developers an extraordinarily attractive financial gain, Bussmann said: "I don't know about that. That would have to be negotiated. That's part of the risk."

He acknowledged that the offer of $1000 an acre is a very low price for attractive building sites in the county.

Bussmann said he advanced the idea of private development of the housing project at a meeting of members of the Land Clearance and Housing agencies. The meeting was called by County Supervisor Luman F. Matthews after the county council, by a vote of 6 to 0, asked the Housing Authority to halt all work on the project. The Authority refused, and work is continuing.

Interest in the proposal "as a possible solution to the present dilemma" was expressed by some members of both agencies. Bussmann said that on his own initiative, he then began to explore the possibility of interesting private developers in the plan.

To Talk About Plan.

"However, almost miraculously, Zoellner called me just the day after the meeting of the two agencies and said he wanted to talk about the same kind of plan I had in mind," Bussmann related. He said he did not know why Zoellner happened to contact him at that particular time.

Bussmann said persons interested in the proposal have already discussed informally with representatives of "a large eastern insurance company" prospects for financing private development of the housing project. They have been assured funds would be available, he added.

"The group also talked to representatives of the real estate board here and was assured of enthusiastic support for a sales campaign to sell the projected apartment buildings," Bussmann stated.

He said that under federal regulations, sales agents would be allowed a commission of 4 per cent.

The potential selling price of the apartment units under the private development plan has not been estimated yet. However, Bussmann expressed confidence there would be no problem involved in selling the units.

Davis, now director of the county's surplus commodities program, denied he had any financial interest in the Zoellner project. He said he had made some inquiries about it because Zoellner had asked him to learn the attitude of the county council toward private builders taking over the program.

"My interest mainly is land clearance," he said. "I am concerned because the housing project at Jefferson Barracks is holding up the land clearance program.

"Zoellner contacted me about a week ago to talk this over. He wanted me to find out what the feeling of the council was toward private builders taking it over. He called me again Thursday night and we talked about it. I told him he should get an announcement in the papers about the possibilities of private industry taking over."

Davis said the only councilman he talked to was John Molloy, who succeeded Davis as representative of the Seventh district.

Bussman said he did not know whether the plan for private development of the project would meet with approval of members of the South County Civic Committee, which has been leading opposition to the public housing project.

He said the plan still was in a preliminary stage but it was decided to make it public at this time because of fear that further opposition to the public housing development might result in complete abandonment of the project.

Bussmann said he was opposed to the proposed public housing project at Jefferson Barracks and "basically I am against unlimited public housing."

However, he said, he was not opposed to plans for public housing developments proposed by the Housing Authority for the Webster Heights or Meacham Park areas of St. Louis county.

He defended the proposal for turning the project over to private developers on the ground that similar action has been taken in "at least three other cities."

He said he felt action was needed to try to resolve the controversy that has surrounded the proposed public project at Jefferson Barracks. If it is not solved, he noted, the county faces the prospect of financial liability amounting to $500,000 or more. Private purchase of the project would eliminate this financial loss and give the housing agency "about $300,000" for carrying on other projects, he said.

He said private development would retain most of the lowrent features of the public housing development.

Bussmann was appointed to the Land Clearance agency by Supervisor Matthews in August 1956 and was reappointed for a four-year term in November 1957.

In 1956, an effort aimed at killing the Jefferson Barracks project was made in petitions transmitted to the Housing Authority by Gene L. Vescovo, then a member of the authority. Vescovo was the only member of the agency to vote against proceeding with the project, and the efforts to defeat it was defeated.

About six months later Vescovo, a former president of the Home Builders' Association, resigned from the Housing Authority.

ILLINOIS LIQUOR BOARD DROPS PLAYDIUM CITATION

The Illinois Liquor Control Commission announced yesterday it has dismissed a citation against Sports Enterprises, Inc., which operates The Playdium, East St. Louis bowling alley and cocktail lounge, for possession of federal gambling tax stamps.

A spokesman said The Playdium, 349 Collinsville avenue, has relinquished the stamps, which now are prima facie evidence of gambling in Illinois. Terry Moore, co-owner of The Playdium, previously told a reporter that pinball machines for which the stamps were issued are no longer in his establishment.

Other clubs and taverns cleared of gambling charges by the commission were Elks clubs at Cairo, Carmi, Danville, Mattoon and Watseka; the Moose Lodge at Mount Carmel; the American Legion at Effingham; Ernie Solomon's Tavern, Peoria, and the Sportsmen's Club, Galesburg. Elks lodges at Lawrenceville and Robinson turned in their liquor licenses rather than surrender the gambling stamps. All had been scheduled to appear Monday in Springfield for a hearing on revocation of their liquor licenses.

GIVEN $23,500 DAMAGES FOR FALL IN RESTAURANT

Miss Florence M. Heine, a practical nurse, was awarded $23,500 damages by a circuit court jury yesterday for injuries she suffered when she fell in a Thompson restaurant at 620 Washington avenue.

Miss Heine, who now lives at Winfield, Mo., testified in the court of Judge Ivan Lee Holt Jr., that she slipped on tile which was covered with a film of soapy water left after the floor had been mopped by a restaurant employe.

She said she suffered fractures of the left arm, leg and shoulder in the accident, which occurred in April 1956. The John R. Thompson Co. was the defendant.

CANDIDATE CITES INCREASE IN ST. LOUIS'S CRIME RATE

The city's crime rate increased considerably during years when Democrats occupied the post of prosecuting attorney and other offices, Arthur E. Johnson, Republican candidate for prosecuting attorney, charged yesterday.

He said police department records covering a 10-year period starting in 1948 showed a relatively low crime rate for the first three years, when Republicans were in office, but a tremendous increase in the ensuing seven years under the Democrats.

6 BRITONS DEAD AS JET STRIKES DETROIT HOMES

3 Houses Destroyed, 20 Damaged in Explosion of Big R.A.F. Bomber.

DETROIT, Oct. 25 (AP)—A British jet bomber on a combined goodwill and training mission exploded and crashed in flames in a Detroit riverfront residential area yesterday. The six Royal Air Force Flyers in the crew are presumed dead.

The jet just missed a big hospital.

None of the residents of the neighborhood was killed although three houses were destroyed by the flaming wreckage and 20 were damaged. Almost unbelievably, only two residents required hospital treatment.

At Lincoln, England, the R.A.F. said it held faint hope one crewman had time to use his ejector seat and parachute safely. However, no survivor had been found in more than 12 hours. Parts of bodies were found among the debris.

The bomber, 95 feet long with a 100-foot wingspan and weighing about 70 tons, fell only about 1000 feet short of a riverfront United States Public Health Service Hospital, which has 170 patients and a staff of 30.

Near Hospital.

Witnesses said the falling plane was on a line with the hospital and "a couple more seconds and she would have landed right in the middle of it."

Trailing smoke and flame, the triangular - shaped delta wing Vulcan roared at tree-top high, clipping leaves and branches in an apparent desperate attempt to make the river. Before it reached the water it blew apart with a tremendous explosion.

"It sounded like it would take the roof right off the house," said a witness. "There was this terrible thunderclap and then the plane burst into a big ball of fire. The whole sky turned red."

The British Air Ministry in London said the ship was from the Eighty-third Squadron of the Royal Air Force Bomber Command based at Waddington Air Base near Lincoln, England.

It did not carry a bomb, the R.A.F. said.

The jet's captain, Flight Lt. John Willoughby Moore, carried a message of goodwill from the mayor of that city to the mayor of Lincoln, Nebr., near headquarters of the United States Strategic Air Command.

Crewmen were:

Flight Lt. Brain Peacock, 27, co-pilot.

Squadron Leader H. J. Scull, 35, navigator.

Flight Lt. James Donald Watson, 33, radar navigator.

Flying Officer A. D. Baker, 23, electronics officer.

Chief Technician E. C. Evison, 32, maintenance crew chief.

The area of the crash is one of middle-class two-story frame homes, a few blocks from fashionable Grosse Pointe Park with its large Lake St. Clair estates.

Woman Trapped.

Mr. and Mrs. Otto Ewald were in their home when a fragment of the plane plowed into it. Ewald, 72 years old, managed to get out, but a stuck door trapped his 65-year-old wife. A neighbor, Michael Durkin, came to her aid.

"Mrs. Ewald was screaming for help," Durkin said. "She was on fire. Their dog was on fire too."

Between them, Durkin and Ewald freed the woman. She and her husband were taken to a hospital. The collie dog, Lassie, was found safe, cooling her singed tail in a nearby canal.

Several boathouses and small pleasure craft moored on the network of channels that lace the area were damaged.

Debris also showered down on a grade school playground crowded with children, but none was hurt.

Torn-down power lines arced eerily on the wet pavement as gas company workers ripped pavements and lawns to cap mains. Police patroled the littered streets. Boat crews searched the river and lake for the missing airmen.

Students From Over U.S. to Join In Washington Integration March

Up to 10,000 Expected — Request for Eisenhower to Meet Youth Committee Goes Unheeded.

WASHINGTON, Oct. 25 (AP)—Students from various areas converged on Washington today for a "youth march" demonstrating for racial integration in schools.

A plea by their representatives for an appointment with President Eisenhower went unheeded.

Bayard Rustin, leader of the planned parade, said the request was not answered. White House press secretary James C. Hagerty said he knew of no appointment with Mr. Eisenhower or anybody else at the White House.

The President left the White House in mid-morning for a round of golf. It was his second in two days.

A. Philip Randolph, head of the Brotherhood of Sleeping Car Porters, had asked that the President see a student committee of four Negroes and four whites.

Rustin predicted that upwards of 10,000 white and Negro students would join the mass march of grade school, high school and college youths favoring sending Negroes and whites to the same schools.

The demonstration is sponsored by pro-integration leaders, various churches, labor groups and the National Association for the Advancement of Colored People.

Former baseball star Jackie Robinson, singer Harry Belafonte and Mrs. Martin Luther King, wife of the Alabama Negro integration leader, were among those listed to head a parade to the Lincoln Memorial.

The Rev. C. Shelby Rooks of the Lincoln Memorial Congregational Temple outlined the aims of what is called "the youth march for integrated schools."

He said opponents of federal court-ordered integration in Little Rock and elsewhere have made a big show of their opposition to putting whites and Negroes in the same classroom. But support for integration has not been given similar notice, he said.

"We're not protesting anything," the Rev. Mr. Rooks said. "This is an attempt to show the solidarity of young people who have been involved with the problem of integration."

UNION CANDIDATE BRINGS SUIT AGAINST TRAINMEN

Harry W. Reed of Dupo asked circuit court yesterday to enjoin the Brotherhood of Railroad Trainmen from blocking his efforts to seek nomination and election as general chairman of the union's Missouri Pacific division.

Reed, a brakeman and conductor for 32 years, said in his suit that after announcing his intention to seek office he had received a letter from W. P. Kennedy of Cleveland, the union's president, stating that he was ineligible. The letter did not give reasons for his rejection, he said. Reed is a former general chairman of the 26-local division.

Nominations for the post must be submitted by the various locals before Nov. 10. Circuit Judge McMillian ordered the union to show cause Oct. 30 why the union should not be compelled to notify the locals that Reed was acceptable for nomination. Named as defendant also is L. G. Crowe of St. Louis, present general chairman of the division.

NEW CLAIMS FOR JOBLESS BENEFITS DECLINE BY 159

New claims for unemployment security benefits totaled 2856 for the week ended yesterday, a drop of 159 below last week when the total was 3015, Charles G. DeLargy, St. Louis manager of the Missouri Division of Unemployment Security announced. The total for the comparable week of last year was 1948.

Continued claims at the close of this week came to 13,431, down 1005 from last week. This was the lowest total on continued claims since Dec. 14, 1957, when the total was 12,350.

Continued claims in the week of 1957 corresponding to this week totaled 10,799.

LEON DANIELS, EX-MAYOR OF ELLINGTON, MO., DIES

Leon Daniels, former mayor of Ellington, Mo., died today at the John J. Cochran Veterans' Hospital, following an operation. He was 62 years old and had suffered from heart disease and diabetes.

Mr. Daniels twice had served as mayor of Ellington and had been a civic leader in Reynolds county for many years. He and his brother, Leo Daniels, were co-owners of the Ellington Press, a weekly newspaper.

Surviving, besides his brother, are his wife and a daughter, Miss Ruth Lee Daniels of Ellington, and a sister, Mrs. Ben Copeland of Jefferson City.

'SMALL OPERATOR' IS FINED, PAROLED IN LOTTERY CASE

Anton R. Kristo, described as "a small operator" in a weather ticket lottery ring in St. Louis county, yesterday received a suspended 90-day jail sentence and was fined $5 by magistrate Joseph W. Murphy.

Kristo, who lives at 870 Florand drive, Florissant, pleaded guilty to a charge of possession of lottery tickets, a misdemeanor. The charge was reduced from being an agent for a weather lottery operator, a felony. The prosecuting attorney's office said Kristo had no prior convictions, and was "a small operator." Kristo was placed on probation for two years.

Two other men, Philip Ojile and Earl H. Allen, employes of McDonnell Aircraft Corp., are awaiting trial on gambling charges at Clayton, in connection with the lottery ring.

JOSEPH LYONS, ATTORNEY HERE FOR 34 YEARS, DIES

Joseph C. Lyons, an attorney here for the last 34 years, died of cancer yesterday at Jewish Hospital. He was 65 years old and lived at 8030 Delmar boulevard, University City.

A graduate of the Washington University School of Law, he formerly was chief rationing attorney for the St. Louis district of the Office of Price Administration. He was a member of the St. Louis, Missouri and Federal bars.

Surviving are his wife, Mrs. Delia Moran Lyons; his mother, Mrs. Joseph H. Lyons of El Reno, Okla., and four brothers and two sisters, all of El Reno. Funeral services will be at 2 p.m. Monday at Lupton undertaking establishment, 7233 Delmar. Cremation will follow.

Tokyo-Moscow Treaty Talks.

TOKYO, Oct. 25 (UPI)—The Japanese government has agreed to open negotiations with Russia on a cultural treaty, informed sources said yesterday.

SUSPECT HELD AFTER ROBBERY OF MOTORMAN

Former Convict Carrying Money Changer Containing $37 Is Arrested.

A former convict carrying a money changer containing $37 was arrested last night and booked suspected of holding up a streetcar operator at the point of a knife.

The prisoner, Jerome Ellis, 28 years old, was identified by a taxicab driver as a man he picked up near the scene of the holdup. Rubin Fairfax, the streetcar operator, said the money changer belonged to him but he was unable to identify the suspect. Ellis, who gave an address in the 4100 block of Enright avenue, made no statement.

Fairfax, operator of a Hodiamont car, said a man boarded the car at Sarah street and the Hodiamont tracks at 8:15 p.m., pressed a knife to the back of his neck and demanded money. Fairfax handed the money changer to the man, who jumped off and boarded a taxicab. About an hour later Patrolman George Holt observed Ellis with a money changer in the 2000 block of Franklin avenue and arrested him.

A man grabbed the purse of Mrs. Evelyn Rueder in the 4300 block of Lindell boulevard early today and was picked up by two men in an east-bound automobile. The purse contained $39.

Mrs. Rueder, who lives at 2314 Shields avenue, Jennings, said she was walking with a friend when a man approached from the rear and grabbed her purse. He ran into the street and jumped into an automobile that slowed down for him.

Donald Declue, 1410 Dillon court, told police he was walking in the 800 block of North Jefferson avenue last night when a man pressed a knife to his back, forced him into an alley and robbed him of $60. The robber ran away.

Allen Glumm, a laborer, 1809A South Eleventh street, was knocked down in the 900 block of Lafayette avenue last night by two men who stole his wallet containing $34. The robbers fled on foot.

Carl Parmenter, 929 Rutger street, was waiting for a taxicab in front of the home of relatives at 3512 Vista avenue early today when two men approached and one threatened him with a revolver. He was forced to walk a short distance east and was robbed of $60. The men fled in an automobile with a third man.

Luke E. Hart Re-elected.

Special to the Post-Dispatch.

MEXICO CITY, Oct. 25—Luke E. Hart of St. Louis was re-elected supreme knight of the board of Knights of Columbus at a meeting here yesterday.

April 10, 1907

Letters from the People

An Answer on J.B.

Francis M. Barnes III, ex-chairman of the St. Louis County Housing Authority, has made several accusations in a letter to the editor of the *Post-Dispatch* which I would like to answer.

1. The name of the group opposing Public Housing in Jefferson Barracks is the South County Civic Committee, not anti-housing, anti-slum clearance committee. The South County Civic Committee will support slum clearance and redevelopment where such is necessary, but when you must create a slum as did the St. Louis County Housing Authority in Jefferson Barracks, then there is something wrong with our laws.

2. Mr. Barnes did approach a legal advisor of the South County Civic Committee and Mr. Barnes admitted he acted hastily in demanding the Federal Government forward money for his projects. Mr. Barnes also stated he wished he could have sat down with the South County Civic Committee and discussed moving the Jefferson Barracks project to another site but stated it was too late. No statement was made by our committee that we could or would "wipe" out the Housing Authority.

3. As the executive director of the South County Civic Committee I have never been approached by Mr. Barnes to make an amicable settlement or any other settlement or discussion of Jefferson Barracks Housing.

4. Mr. Barnes claims this project would have been low rent. Does $60 per month seem to be low rent, when in 1956 according to the planning commission there were approximately 750 private family units vacant and available for rental at less than $40 per month?

5. Since Mr. Barnes feels he has been slighted by the South County Civic Committee, we will meet him, or any other housing authority official, federal or local, to show reason why public housing should not be built at the Jefferson Barracks location.

John P. Carson,
Executive Director
South County
Civic Committee

Into the Breach

President Eisenhower is telling the country that he wants a Republican Congress. Inasmuch as the Congressional Quarterly reveals that the 1958 Democratic Congress gave him a 76 per cent backing for his legislative proposals, what does he want with a Republican Congress?

He is telling the country that the Democratic party is hopelessly split from top to bottom. But the record shows that his own party is so split that he had to look to Democratic votes to get his legislation over.

The reason for Ike's campaigning is crystal clear. The Republican record is so poor that the frantic party bosses have yanked him off of the presidential chair and sent him out speech making in the hope that the appeal of a popular war-hero may be able to stem the engulfing tide of defeat.

John Heintz

Unfair to Normandy

The recent notoriety achieved by the Town of Normandy at the hands of the Automobile Club's counsel is not fair.

There are several pertinent points that were omitted from the Club's scathing denouncement of our Town and its system of government.

1. The people arrested and fined were speeding.

2. One child was seriously injured on Florissant road. Another child was struck while crossing with a group at a school crossing with the electric signal in their favor.

3. Speed limits are plainly posted; there are no hidden patrolmen; and the timer system is an approved method of catching violators.

The episode of the "forty speeders" occurred shortly after the above mentioned accident took place in the crosswalk; and was upon request of several citizens of Normandy, one of whose children was the child involved.

The citizens of Normandy feel they do not have the children to lose. We would rather lose our membership in the Auto Club.

Normandy

Politics and Posters

One evening not long ago a car stopped at the corner of Hanley road and Olive Street road in University City. A man stepped out and tore down the election poster of Norman Anderson.

Then the car went farther down the street and the person tore down another of Anderson's signs. If Anderson's opponents are people like these, then I have no doubt in my mind that the people of St. Louis county should rise above the partisan politics and elect a competent and honest Prosecuting Attorney who is anathema to the criminal elements!

Sheldon Margulis

Yes on Illinois Bonds

Although Illinois does not elect either a Governor or a Senator, there is ample reason for every registered voter to go to the polls, Nov. 4. In addition to filling two statewide and local offices, voters will pass judgment on a series of important propositions. One of these is a bond issue for long-overdue construction at state institutions.

In summary form here is what the submitted 248-million-dollar bond issue proposes:

For state welfare institutions	*$81,000,000*
For Southern Illinois University	*41,000,000*
For University of Illinois	*86,000,000*
For Institutions of the Teachers College Board	*40,000,000*

Although better able than many states to provide commodious, modern, adequate housing for its 50,000 mental and otherwise handicapped patients in state institutions, Illinois has fallen behind in capital improvements. State hospitals are 42 per cent overcrowded and there is no prospect of large-scale modernization short of the passage of a bond issue which will spread out the cost.

The state universities—at Urbana, Chicago, Carbondale, Normal, Macomb, DeKalb and Charleston—have come somewhat nearer to keeping up with needs, but they soon will be overwhelmed with students who are now in high and elementary schools. With 156,000 in Illinois colleges now, the forecast is for 274,000 in 1970 and 344,000 by 1977.

This means that existing state university facilities must be enlarged as rapidly as sound planning and construction will allow. At Carbondale, at Urbana and elsewhere, students today are attending classes in remodeled Army barracks or similar makeshift quarters.

To pay the interest and redeem the bonds over a 25-year period, at an interest rate of 3 per cent, would mean a legislative appropriation of $14,000,000 a year or about $1.48 per resident of Illinois. That Illinois can afford to do better by its state welfare and educational institutions is made only too evident by these comparative Census Bureau figures on long-term debt prepared in 1957:

STATE	PER CAPITA DEBT	PER CAPITA INCOME	PER CENT
New York	$40.07	$2578	1.6
California	33.58	2523	1.3
48-state average	29.74	2025	1.5
Pennsylvania	28.63	2112	1.4
Michigan	27.11	2141	1.3
Illinois	21.65	2447	.9

The need in Illinois, as in many other states, is for a bold, large, determined approach to the problem which the proposed bond issue fortunately tackles head on. As the Rockefeller Report put it so well:

"We are moving into the most demanding era in our history. An educational system grudgingly and tardily patched to meet the needs of the moment will be perpetually out of date. We must build for the future in education as daringly as we have built other aspects of our national life in the past."

Illinois voters can be glad that their legislators moved to anticipate these needs rather than wait until they were completely out of hand. They are fortunate to have this far-sighted proposal before them at this time.

The Language Barrier

It is possible for a foreign service officer to fly from Washington to just about any world capital within 24 hours. But it is not at all certain that when he arrives he will be able to speak the language of the country. The distance barrier between nations has been greatly reduced in the last 10 years but the language barrier is not a whit less formidable for the United States than it was in the 1940s.

It is a lamentable commentary when the State Department has to make such an admission of its linguistic handicap as was made by Deputy Under Secretary of State Robert D. Murphy this week. He said that 70 per cent of the nation's new foreign service officers "have no workable use of a foreign language." As a result, the language requirement for foreign service applicants had to be made optional, he said.

Until this country sees that its foreign service corps is equipped with the proper linguistic tools it is going to work under a handicap such as no other major nation endures.

Men and Machines

Each week brings new indications that the national economy is well on its way out of the slump—72 per cent of the way, according to the latest estimate of the Council of Economic Advisers. After smaller rises earlier in the year, the gross national product rose $11,000,000,000 in the third quarter, according to the Council's estimate, thus recovering $14,200,000,000 of the $19,800,000,000 loss suffered between the third quarter of last year and the first quarter of this year.

This, however, is recovery with a difference. Unemployment is out of step. Jobs are not opening up nearly as quickly as productivity figures are rising. About 600,000 persons got back on payrolls in September, yet the total unemployed in that month was 4,111,000 or about 1,500,000 more than a year earlier. The reason is to be found, paradoxically, in increased productivity.

Industry has been investing heavily in labor-saving machinery. This is not yet the day of full automation, but the wind is in that quarter. Manufacturing has been able to achieve a 10 per cent gain in production since last April with only a 5 per cent rise in employment. That is why unemployment is most severe in the Eastern and Midwestern industrial states, and least serious in agricultural areas and in the food processing industry. Further, employment is expected to lag most severely in those industries which have gone farthest in improving the mechanics of productivity. Just as virtually irreducible unemployment developed earlier in mining and textiles, so economists now see areas of industry —and these are geographic areas, too—which will be troubled by endemic joblessness. Since 1948 a 35 per cent gain in productivity has been reported with a 6 per cent decline in production jobs.

This may mean a political headache in the near run. In the long run, of course, greater productivity at a lower cost in man hours should mean greater prosperity, lower prices, more conveniences, more leisure. Yet this economic paradise will not burst on the nation automatically. There may be distress unless adjustments are made to the changing pattern.

Workers in some industries will have to be retrained for others. Some workers will have to be helped to relocate in other areas. No single, sure-fire solution is ready to hand. What is needed is a keen realization of what is happening, and a strong determination to manage the change intelligently.

The increasing productivity accompanied by increasing unemployment cannot bring prosperity. Mechanical progress must serve human betterment. But it will take serious effort to keep the human and the mechanical in step.

A Supervisor Who Will Lead

The essential issues in the Jones-McNary contest for County Supervisor can be boiled down to a single concept, leadership.

A. Clifford Jones, the Republican candidate, not only is certain that the Supervisor must lead in remedying the county government's inadequacies; he wants the opportunity to lead, and he has a fairly precise idea of his particular objectives. James H. J. McNary, the Democrat, is vague and uncertain both as to the need for leadership and, even granting a need, what its aim ought to be.

What Mr. Jones is saying, it seems to us, is that the Supervisor ought to be a source of ideas, drive and political courage; that the Supervisor must do more than sit in his office and collect his salary; that the Supervisor must take the initiative in seeking changes both within the county government and in its relationships with its municipalities so as to make it a more effective instrument for providing public service.

What Mr. McNary seems to be saying is that there is no need to rush; that there may not be any need for change, and that in the meantime he is willing to coast with the political administration and spoils system that is such a disheartening aspect of the county government today.

We agree with Clifford Jones. We think he was right when he warned a meeting of the County League of Municipalities the other night that the county must strengthen its horse-and-buggy structure to cope with expected future growth as well as to permit the fullest economic development of the whole area.

Mr. Jones exhibits a mature understanding of the need to establish better working relationships between the county and its 97 municipalities. He was secretary of the Singer committee appointed by joint action of the County Council and Municipal League to make specific recommendations. He now wants to translate these recommendations into action. Mr. McNary, though a member of the body that assigned this work to the committee, is characteristically noncommittal. He is "interested" in the proposals, but thinks that "additional study" is needed. In other words, he favors a study of a study, which is a handy euphemism for doing nothing.

County voters who want their county government to grow up and be in position to serve them will prefer the vigorous and precise Mr. Jones. Those who want to stand still can do so with Mr. McNary.

Cardinal Confined

Hungary's Communist government has turned down a request of the United States that Cardinal Mindszenty be allowed safe conduct to Rome to participate in the election of a new Pope.

This is in keeping with the treatment of the Hungarian Cardinal by the Communist rule at Budapest. In 1946, the Archbishop's trip to Rome for elevation to the cardinalate was delayed until an American armed forces plane enabled him to get there. Soon after he returned to Budapest he was charged with treason and given a drumhead trial. Kept virtually incommunicado by the Communists for many months, he has been afforded refuge by the United States legation for almost two years.

What purpose is served by the Communists in holding Cardinal Mindszenty in virtual prison? Had he been guaranteed safe conduct he would have gone to Rome, in all probability never to return to Hungary. Cardinal Tien is an exile from Red China and Cardinal Mindszenty would have been an exile from Hungary.

But because he is compelled to stay within Hungary when Cardinals are assembling from all the continents, Josef Cardinal Mindszenty is far more of a symbol of Communist persecution than if he were allowed to travel as he willed.

Crusade for Missouri

The deficiencies of Missouri's mental hospitals are so alarming that they call for emergency measures, says Dr. Addison M. Duval, the new director of the Division of Mental Diseases. Happily, Dr. Duval's employment is an indication that Missouri has started to face this situation. Recent legislatures have made possible at least the preliminaries of thorough reform.

It is now all-important that Dr. Duval be enabled to meet the hospitals' emergency requirements: more and better staff, unified and improved management, a reduction in the number of patients who should not be in these institutions, and the establishment of treatment centers for emotionally disturbed or mentally ill young people.

The risks to which Missouri exposes its citizens, mentally well and unwell, are illustrated by the case of mentally retarded Donald Cox, who while racing on the Daniel Boone Expressway crashed into a car and killed its two occupants. County authorities admit that they had seen Cox off and on, and that they knew he was a mental case, potentially dangerous. Yet he was left free on the almost sure road to trouble.

More intelligent action by county authorities, however, still would have brought them up against the state's inadequate provisions for the mentally ill. Dr. Duval has pointed out these defects just as they have been described by legislative investigators and others in the past. To eliminate them, everybody in Missouri should enlist in Dr. Duval's "crusade" for hospitals which will cure the mentally ill.

Trained workers in this field are scarce. But as Dr. Duval says, Missouri can attract such people if it lets them know that it is sincerely determined to bring its mental institutions up to date. State laws regarding the mentally ill need revision, but that is much less of a problem. And most of the other requirements of an adequate mental disease program are largely matters of dollars which Missouri can afford.

What is needed is determination, a firm decision to make good shortcomings too long neglected. What is needed is just what Dr. Duval called it: a crusade.

"Dear Sir: In Answer to Your Expression of Concern of a Couple of Weeks Ago _ _"

Branch Banking Faces a Test

Magazine Cites National Experience on Issue Coming Before Missouri Voters

The Mirror of Public Opinion

From *Business Week*

Ten years of change in the structure of American banking have produced fewer banks, more branches.

Mergers have cut the number of banks — mergers to cut overhead, consolidate resources, gain access to new business areas. But the number of branches has doubled since 1947, as banks tried to follow customers out of downtown centers.

Thus, the banking business has broken away from the old concept of an independent, home-owned bank for each major community. However, it is still far from the degree of branch banking that is the accepted way in most other countries. In Canada, for example, there are only 11 commercial banks; in Britain, five banks do more than 75 per cent of the banking business.

There's no chance that the United States will adopt the Canadian or British pattern anytime in the foreseeable future. Both state laws and the regional nature of the Federal Reserve System are effective barriers to national branch banking operated by a few mammoth banks. But there is no doubt at all that the growth of the nation's commercial banking system will come via the branch banking route.

Missouri's Proposition 3

Despite massive resistance by independent unit banks, branch banking—boasting greater efficiency and lending capacity—is gaining ground with steadily increasing momentum.

The rise of branch banking has been held down by the laws and policies of some states. Extension of branches has been stoutly opposed in many states, and branch banking is prohibited entirely in nine states. One of these is Missouri, which is going into the final rounds of a political fight to legalize limited branch banking.

The issue appears on the ballot Nov. 4 in Missouri as Proposition 3. It came to referendum by the process of initiative, rarely used in the state. Voters signed the initiative petition to put the question on the ballot. If it passes, branch banking becomes lawful. Banks will be allowed to set up branches within the same county as the main office or, in the case of St. Louis and Kansas City, within 12 miles of the city.

Direct Appeal to Public

Backers of the proposal went directly to the public to enact this law through initiative and referendum because they knew they didn't have a chance in the legislature. In the banking field, the small country banks wield majority influence in the legislature, and they are implacably opposed to any form of branch banking. Last year, for example, they led successful opposition to a law to allow banks to set up drive-in windows that are detached from the main bank building.

Foes of branching have lined up some impressive names on their side. Ex-President Truman, for example, has come out against branch banking, as has Representative Cannon, chairman of the House Appropriations Committee and president of a rural Missouri bank.

Most of the state legislators who are up for election have joined the opposition to branch banking, along with the Missouri Bankers Association and other groups that are sensitive to rural interests. Democratic and Republican state committees, however, regard the issue as a hot potato, and neither has yet been willing to pick it up.

There are a few significant chinks in the solid front of the downstate opposition. Some rural newspapers, such as the Nevada (Mo.) *Herald*, say many Missouri villages have no banks at all and aren't likely to get any unless branch banking is legalized. A certain amount of branch banking, says the *Herald*, could provide facilities at low cost to people who now have to drive 20 or 30 miles to a bank.

Country bankers in Missouri base their opposition on the claim that branch banking sharply reduces the number of independent banks, leading to a "monopoly" of credit. Proponents concede that the effect is often to reduce the number of banks, but they deny that this will result in a credit monopoly.

They cite the situation in the Philadelphia area, where restrictions were relaxed in 1933. Since then, 47 new branches have been set up by eight Philadelphia banks. All but seven of the branches were acquired by merger, a large bank acquiring a smaller one. Nonetheless, the independent banks that remain report "business has never been better."

Preference for Mergers

It's easy to see why banks prefer to acquire branches through merger rather than by establishing them from scratch. Normally, a brand new branch is expected to lose money for at least three years; the office of a merged bank, on the other hand, is usually running at a profit.

Moreover, the Federal Reserve Bank of Philadelphia, after studying 67 mergers, reports that small banks merging with larger ones generally suffer no loss. On the contrary, merger announcements typically lead to a rise in price of the smaller bank's stock, officers and employes usually get higher salaries and more fringe benefits after the merger, and the enlarged bank is in a better position to pay competitive interest rates on savings and to expand its lending activity.

These gains are partly offset by a few losses. The president of the absorbed bank loses his title, though he usually gets more money. The community's pride, too, may be hurt by loss of local ownership of its bank. The community is also likely to feel it is losing a source of credit for purely local enterprise, the kind that a home-controlled bank may recognize as a good risk but a branch manager may turn down rules established at the home office.

Banks in downtown St. Louis and Kansas City appear to have compelling reasons to branch into the suburbs. According to the Committee for Branch Banking, which is one of the groups behind the Missouri proposal, deposits in downtown St. Louis banks rose only 63 per cent between 1942 and 1957, while outlying banks in the city gained 247 per cent and suburban banks gained 546 per cent.

New York's Experience

"Downtown banks are losing individual and corporate customers as the movement to the suburbs continues," says the committee. "Every other business can follow its customers, but Missouri banks cannot."

After studying the experience of big branch banks in New York, some Missouri bankers say they should be able to expand much faster than before, if the branch banking law is passed. They see New York's experience as refutation of a key complaint about branch banking—that it channels funds out of a community to a harmful degree.

Instead of hurting a community, they say, branch banking fully mobilizes financial resources and puts them to gainful work, instead of allowing reserves to pile up in banks that can't use them. This, they say, strengthens the local economy.

A New York banker notes that, in his system of branches, some of the busy downtown branches have more money out on loan than they have on deposit, while the suburban branches may have only 10 per cent to 20 per cent of their deposits out on loan.

Between Book Ends *Stalin in China*

STALIN'S FAILURE IN CHINA: 1924-1927, by Conrad Brandt. (Harvard University Press, 226 pgs., $4.75.)

Conrad Brandt's "Stalin's Failure in China" is a most useful addition to the growing shelf of literature dealing with the rise of the Chinese Communists. This volume deals with the period of the 1920s when the Soviet Union made its first plunge into China, and after initial success encountered failure.

As such, it treats with a little known period of Sino-Soviet history —one which has often been neglected in accounts dealing with the vast sweep of Communism over mainland China in the middle 1940s.

Stalin

Mr. Brandt brings to his rather brief discussion of this first attempt of the Soviet Union to penetrate China a wealthy experience. He is now a research fellow at the Center for East Asian Studies at Harvard University.

The author shows how Chiang Kai-shek outwitted Josef Stalin in the early '20s, with the help of an internal split inside the Soviet Union and misguided intelligence agents in northern China.

Mr. Brandt uses the Trotsky Archives—heretofore never used for studies on the Chinese question—to see the Stalin-Trotsky rift as it affected the Chinese problem.

Trotsky, he states, sought advance into Europe, while Stalin saw the advantages of propagating Communism in China. Although they seemed far apart, Mr. Brandt suggests they may have been closer than even they realized. He writes that Trotsky, if he had been in Stalin's place, might well have gone along with Stalin's ideas of Chinese expansion. "China," he adds, "was the only country through which the world revolution could possibly spread outward."

And thus it was. China was the only country, outside the Soviet Union, where Stalin practiced. But the author notes that he practiced "in his own way, the principles (of world revolution) taught by Trotsky."

This book is essential to understanding the early period of Sino-Soviet contact. Mr. Brandt has written well. **James Nelson Goodsell**

For the Specialist

CHAMBER'S TECHNICAL DICTIONARY, edited by C. F. Tweney and L. E. C. Hughes. (3d ed., revised, with supplement. (Macmillan, 1028 pgs., $7.50.)

The revised edition of this recognized work of reference now contains 55,000 entries drawn from more than 100 branches of scientific and industrial activity. A seventy-four page supplement with nearly 5000 definitions of new terms brings it up to date.

Reds' Literary Gazette Assails Pasternak and Nobel Award

MOSCOW, Oct. 25 (UPI)—Russia's Literary Gazette came out today with two and one-half pages devoted to an attack on Nobel prize winner Boris Pasternak and the Swedish Academy, which chose him for the award.

The Gazette, under the headline "Provincial Intrigues of International Reaction," blasted the academy for its "sensational citation, permeated with lies, and the hypocrisy of the decision to give the Nobel prize to Pasternak."

The hypocrisy, it said, lay in the fact that the citation indicated all of Pasternak's works and not the Russian-barred novel "Doctor Zhivago" alone were responsible for his winning of the award.

The award decision was branded as a "hostile political act against the Soviet state," and a "calculated ideological diversion which was intended to take a significant place in the campaign recently developed by the most reactionary forces of the West."

"The political character of the award can be seen from the non-recognition of the great classical Russian writers like Anton Chekhov, Leo Tolstoi and Maxim Gorky who were 'real giants' of world literature," the Gazette said. "'Dr. Zhivago,' on the other hand, was nothing but an artistically squalid and malicious work."

The Gazette noted that one other Russian writer, the refugee Ivan Bunin, was awarded the Nobel prize in 1933. It said Pasternak was now being likened to Bunin as an "internal refugee," whereas Bunin was an "external refugee." (He lived in Paris.)

There was no official word today whether Pasternak would be able to make the trip to Stockholm to pick up his award. Although his novel has been published outside Russia, he lives in the Soviet Union, near Moscow.

Pasternak said in an interview he was overjoyed at selection for the award and hoped to go to Stockholm Dec. 10 for presentation of the award and the $41,420 that goes with it.

Soviet Scientists Said To Be Slated For Nobel Prize.

STOCKHOLM, Oct. 25 (AP)—Three Soviet atomic scientists were reported today to be slated for the 1958 Nobel prize in physics for a discovery built into Sputnik III.

The newspaper Aftonbladet said the first Nobel physics award for Soviet Russians would be divided among Profs. P. A. Cherenkov, Igor E. Tamm and I. M. Frank.

They all rank among the elite in Soviet atomic science. Tamm has been mentioned as having performed important work in harnessing the H-bomb for peaceful power.

Aftonbladet said they would receive the Nobel distinction for having first understood the true nature of a bluish light, known as the Cherenkov effect, which hovers over atomic reactors submerged in water. The Russians used the Cherenkov effect as the basis for a new type of cosmic ray counter carried by the still-orbiting Sputnik III.

The radiation discovered by Cherenkov was studied by Tamm and Frank, who formulated a theory to explain the phenomenon.

The light occurs when charged atomic particles move faster than light through water or other medium, they explained. This meant, in effect, that light is not the fastest thing in the universe under all conditions.

Tamm tried to explain it in a popular manner by comparing the particle with a supersonic jet breaking the sound barrier and by comparing light waves with the "sound waves of the bang."

SAYS POOR CARE MAY RETARD CHILD

Mental retardation in children may in some cases be traced to inadequate environment and undesirable attitudes in parents, delegates attending the annaul conference here of the Illinois Association for the Education of Exceptional Children were told today.

Prof. Samuel A. Kirk, director of the University of Illinois Institute for Reserach on Exceptional Children, reported to the conference on the results of a five-year experiment with 81 pre-school children.

"In light of this experience with retarded children, social agencies and others concerned with persons likely to become public charges might very well reconsider the generally accepted theory that even a poor home or a poor mother is better than none."

"It appears that mental retardation may result from permitting children to remain with irresponsible or inadequate parents," Prof. Kirk said.

Kirk pointed to findings indicating that mental and social development of retarded chindren may be accelerated by early education.

Of 81 pre-school children in the experiment, 43 who received early traning were found to be "far in advance" of the 38 who received no training. Furthermore, trained children retained their advantage at the end of an extended follow-up study, he added.

The combination of preschool training with removal from inadequate homes produced even greater improvement in four children who had been placed in foster homes, Prof. Kirk said.

"Thus, it appears that mental retardation is not a static condition—that early education and positive environmental changes can raise the level of mental growth," Prof. Kirk said.

These experiments seem to indicate that prevention of retardation in underprivileged children will depend on how our society provides for such children in terms of environment and schooling, he added.

The two-day convention, held at the Hotel Sheraton-Jefferson, ended today.

Primate of Australia Dies.

SYDNEY, Australia, Oct. 25 (AP)—The Anglican primate of Australia and Archbishop of Sydney, the most Rev. Howard West Kilvinton Mowll, died of a heart attack last night. He was 68 years old.

DE SEVERSKY HITS AT DEFENSE RIVALRY

Rivalry of the armed services in the missile and satellite fields, and the fact that "the Ameircan people are kept in ignorance of the true state of affairs in national defense" were sharply criticized here last night by Alexander P. de Seversky of New York.

De Seversky, who was in St. Louis as first speaker of the sixty-first season of the Washington University Association lecture series, spoke on "Air Power and Space Supremacy." He addressed about 1000 persons in Graham Chapel on the university campus.

Americans, he said, do not realize that Russia's progress is much more rapid than ours. At the rate the United States is going in missile development, this country will never be able to catch the U.S.S.R., he added.

Urges Defense Unity.

De Seversky, an aeronautical engineer, lecturer, and author, called for reorganization of the Defense Department "with technology of our day." He urged that the department integrate all the armed forces into one, primarily because the Defense Department "is a department for air and space."

The single armed force, although it would still have bureaus of the services, should be armed for global command of air and space, he asserted. Until this is done, he told his audience, "America will flounder around and never be able to overtake Russia in military strength."

"Another reason for reorganization into one armed force is that defense effort is only 50 per cent of efficiency," de Seversky declared. "We are still maintaining the forces and weapons system which were good for the last war but irrelevant for any type of warfare in the future."

The Russian-born speaker, who was cited in 1947 by former President Harry S. Truman for "outstanding contributions to American victory through his far-sighted advocacy of strategic air power," said: "We must achieve efficiency to be strong and at the same time maintain our high standard of living. Unless we can show the world we can accomplish this, we can never sell the world our philosophy.

'Struggle to the End.'

"We can do this," he continued, "if the American people recognize the dire danger we are in—a struggle to the end."

The United States, de Seversky said, is in the struggle on all fronts economic, military and psychological—and this nation can no longer keep leadership in the world without exerting great effort and maintaining superiority.

Stating that the Russians are ahead in rocket power, jet engines and in other areas, he put the blame for America's "going along lackadaisically as if there is no competition" on both the Democratic and Republican administrations because they kept "Americans ignorant of the facts of national defense."

He told a press conference before his address that confusion of the last 10 years will continue.

"We cannot have conventional goals and maintain supremacy over land and sea," de Seversky asserted. "Weapons must be backed up with a definite concept, logistics and military philosophy behind the particular weapons system."

News of the Churches in the St. Louis Area

CHURCH WOMEN MEET IN DENVER

By JOHN T. STEWART
Church Editor of the Post-Dispatch.

United Church Women will tackle a wide range of controversial issues when they meet at Denver next week. And the women's department of the National Council of Churches has earned a reputation for making forthright statements on all issues that touch on human rights and welfare.

More than 3000 American church women and their invited overseas guests will meet in the Denver City Auditorium Monday through Thursday.

Mrs. J. William Sonnenday, president of United Church Women of St. Louis, will lead a delegation of 10 members to Denver. Other delegates are Mrs. Virginia Cook, executive director of the St. Louis group; Mrs. Edwin T. Dahlberg, Mrs. H. C. Bleckschmidt, Mrs. Henry J. Carter, Mrs. Oscar G. R. Limberg, Mrs. W. Davidson McDowell, Mrs. Paul S. McElroy, Mrs. Dorothy Thornton and Mrs. Herbert W. Ziercher.

The triennial assembly of U.C.W. represents 2300 councils of church women and an estimated 10,000,000 Protestant women in the United States.

The theme of this year's meeting is Christian freedom, and a poll of local councils throughout the country has been made to decide the various phases of freedom to be laid before 12 work groups at the convention. Assembly action will then serve as a platform for the church women in the next three years.

Resolutions in all probability will cover such subjects as human rights, racial integration, attacks on freedom, population growth and mobility, pockets of poverty in the country, civil rights legislation, housing, religious liberty and foreign policy.

The Rev. Dr. Edwin T. Dahlberg of St. Louis, president of the National Council of Churches and pastor of Delmar Baptist Church, will give one of the major addresses.

Other speakers include Rajkumari (Princess) Amrit Kaur of India, former member of Prime Minister Nehru's cabinet; Dean Walter G. Muelder of Boston University School of Religion; Bishop Chandu Rav of the Anglican Church of Pakistan, and Miss Anna Lord Strauss, president of the Carrie Chapman Catt Memorial Fund, Inc.

A grant from the Lilly Endowment, Inc., makes possible the attendance of a group of women from the newly independent nations of Asia and Africa.

U. C. W. president is Mrs. Theodore O. Wedel, wife of the canon of National Cathedral (Episcopal), Washington, D.C. Mrs. Wedel spoke in St. Louis Monday at the International Convention of Christian Churches.

RETREAT HOUSE CHAPEL TO BE BLESSED SUNDAY

Stations of the cross will be erected and blessed in the new chapel of the Workingmen's Retreat House at the Shrine of St. Joseph, Eleventh and Biddle streets, tomorrow at 3:30 p.m.

The Rev. Ethelbert Harms, O.F.M., pastor of St. Anthony's Church, will conduct the service.

After benediction, the Men's Club of the church will hold open house in the chapel and retreat rooms until 6 p.m. The chapel was built in former classrooms of the old St. Joseph School.

NEED FOR 2000 CHURCHES

At least 2000 new Protestant churches must be built every year to serve Americans "caught up in an era of tremendous expansion," an officer of the National Council of Churches says.

The Rev. Meryl Ruoss, executive director of the council's Department of the Urban Church, estimates that at least $500,000,000 will have to be invested in church building and another $75,000,000 in program and staff by Protestant denominations.

Relief Goods Flow.

More than 100,000,000 pounds of Lutheran World Relief articles have been sent abroad thus far during 1958, according to National Lutheran Council, New York.

ST. LOUIS PASTOR LEADING ALASKAN BAPTIST CRUSADE

The Rev. Ovie A. Winscott, pastor of Rock Hill Baptist Church, is one of 22 Southern Baptist preachers who have been conducting simultaneous revival meetings in Alaska. Their campaign of evangelism opened Oct. 5 and will close tomorrow.

The Rev. Mr. Winscott is preaching daily at First Baptist Church, Juneau, capital of Alaska, where the Rev. Bryan Osborn is pastor. Rock Hill Baptist Church, 9125 Manchester road, where the Rev. Mr. Winscott has been pastor for 17 years, helped establish the Juneau Baptist Church. It was started as a mission in 1942 under the leadership of Miss Frances Black of Fulton, Mo., who was the Rev. Mr. Winscott's Sunday school teacher when he was a boy in First Baptist Church of Fulton.

Southern Baptists have been working in Alaska since Chaplain Aubrey Halsell established a Baptist church at Anchorage during World War II.

REV. PAUL STOCK RESIGNS FROM 24-YEAR PASTORATE

The Rev. Paul R. Stock has resigned as pastor of Trinity Evangelical and Reformed Church, 4700 South Grand boulevard, where he has been pastor for 24 years.

He has accepted a call, effective Nov. 17, to St. Luke's United Church of Christ, Morton Grove, Ill., Chicago suburb. It is a new congregation now holding services temporarily in a public school building. A four-acre site has been purchased and construction of the first unit of a church building will be started next spring, the Rev. Mr. Stock said.

He is a graduate of old Central Wesleyan College, Warrenton, Mo., and Eden Theological Seminary, Webster Groves. He holds a master's degree from Tulane University, New Orleans, La., where he served his first pastorate before coming to St. Louis.

During the Rev. Mr. Stock's ministry at Trinity Church the membership has grown to 1500, a $95,000 indebtedness was paid off, a new $200,000 educational building erected, and a second parsonage bought. The sanctuary has been renovated and other improvements made in the church property.

MISSOURI COUNCIL TO MEET MONDAY

The Missouri Council of Churches will hold its annual meeting at Jefferson City Monday and Tuesday. A large delegation of St. Louis pastors and laymen will attend.

The Rev. Louis H. Lammert, pastor of Calvary Evangelical and Reformed Church, Overland, is president of the council. The Rev. A. Greig Ritchie, a former Congregational minister of St. Louis, is the executive director.

"The Planning and Adjustment of Churches" will be the theme of the meeting. Town and country churches will be the subject of an address by the Rev. Dr. Richard O. Comfort, director of the Department of Town and Country of the National Council of Churches.

Planning city churches will be discussed by the Rev. Kermyt Roebuck, executive director of the Council of Churches, St. Joseph, Mo. Problems of churches in the metropolitan area will be presented by the Rev. John W. Harms, vice president of the Church Federation of Chicago.

Bishop Eugene M. Frank of St. Louis, Methodist bishop of Missouri, will preach the sermon at a worship service Monday at 7:30 p.m.

The Rev. Jans J. van der Graff, pastor of Scruggs Memorial Methodist Church, St. Louis, will conduct a worship service Tuesday at 9 a.m.

The meeting will close Tuesday afternoon with the presentation of seminar reports on churches in town and country, city, and metropolitan areas. Dr. Ralph Woodward, president of Central College, Fayette, Mo., will speak at the closing session.

ETHICAL SOC'ETY NAMES DAVID NORTON ASSOCIATE

David L. Norton has been named associate leader of the Ethical Society, 3648 Washington boulevard, it was announced this week. He has been assistant to the society leader James F. Hornback since July, 1957.

Before he was named associate leader, Norton was certified for leadership in the American Ethical Union. Certification is the legal and professional equivalent of ordination in the Ethical Society ministry. Norton's certification was granted by joint action of the local society and the Fraternity of Leaders of the A.E.U.

Norton will speak for the first time in his new position at 10:30 a.m. tomorrow at the meeting of the society.

He is the son of Mr. and Mrs. Cecil Norton of 6133 Westminster place, and a graduate of Washington University. He is a former engineer and artist.

Four Churches Celebrating Post-Century Anniversaries

Four Evangelical and Reformed Churches of St. Louis are celebrating anniversaries past the century mark, while another is celebrating its ninetieth birthday.

Oldest of the group is St. John's Church, Mehlville, which is 120 years old. The Evangelical Synod of North America was organized in this church in 1840. The Synod merged in 1934 with the Reformed Church to form the Evangelical and Reformed Church, now part of the new United Church of Christ.

The Rev. Herbert H. Wintermeyer is pastor of St. John's Church, which has a communicant membership of 1060.

St. Peter's Church, St. Louis and Warne avenues, north side, and St. Marcus Church, Russell boulevard and McNair avenue, south side, are celebrating their 115th anniversary. These two congragations really are twins, for both started in 1843 as the German Evangelical Congregation of St. Louis, in the old Benton School at Third Street and Lafayette avenue.

In 1844, when a flood struck the city, members of the congregation were unable to cross flood waters to reach their meeting house, so they decided to separate and establish two churches. St. Peter's took the north area and St. Marcus the south.

St. Peter's congregation worshipped and conducted a parochial school for 60 years at Fourteenth and Carr streets. The present stone church on St. Louis avenue was built in 1906. In 1955, St. Peter's Chapel was established at West Florissant and Stein roads in the county.

The Rev. Dr. Elmer Henry Hoefer is pastor of St. Peter's Church, and the Rev. Robert W. McNamara is associate pastor.

St. Marcus Church moved to its present location in 1914. The Rev. Telfair L. Boesch is pastor.

CHURCH LEADER GIVES ADVICE ON BUDGETING

Paying for a church building should not wreck a congregation's budget, Disciples of Christ were told here this week by the chairman of their Board of Church Extension.

The church extension executive said paying for a new building "should not prevent a well-balanced budget with adequate items for missions and benevolence and minister's salary, as well as other program expenses."

The Rev. Lloyd V. Channels, pastor of Central Christian Church, Flint, Mich., delivered one of the major addresses at the International Convention of Christian Churches (Disciples of Christ) which adjourned Wednesday. The Board of Church Extension, which he heads, was established 75 years ago, and has headquarters at Indianapolis, Ind.

The board's interest-free loan fund for new churches now stands at $640,000, but during the decade of the 1960s it is hoped that the fund can be built up to $2,500,000, the Rev. Mr. Channels said. This would bring the board's total resources to $25,000,000, he added.

Christian Churches expect to build 1000 churches during the 1960s, the board chairman stated.

SACRED HEART HOUR NEW NAME OF RADIO, TV SHOW

The name of the Sacred Heart Program has been changed to the Sacred Heart Hour by regional directors of the program, it has been announced.

At a recent meeting at Loyola College, Montreal, the directors also announced plans for a new program, "Moments with the Sacred Heart," to be heard on radio stations not carrying the Sacred Heart Hour. The new program will be two minutes of prayer.

The Sacred Heart Hour is broadcast by Post-Dispatch Station KSD at 6:15 a.m. Saturday and 7 a.m. Sunday. The 15-minute program also is televised in St. Louis on KTVI.

MOTHER MALACHY OBSERVING JUBILEE

The Rev. Mother Marie Malachy, Provincial Superior of the Franciscan Missionaries of Mary, will celebrate her golden jubilee in the order tomorrow. Archbishop Joseph E. Ritter will preside and preach the sermon at the jubilee high Mass at Our Lady of the Angels Eucharistic Shrine, Hotel Alverne, Eleventh and Locust streets, at 10 a.m.

Mother Malachy and four Sisters of her order came to St. Louis in 1956 to establish a home for elderly persons at Hotel Alverne. They were asked by Archbishop Ritter to take over this work.

A native of Ireland, Mother Malachy entered the Institute of the Franciscan Missionaries of Mary and took the habit in 1908. From 1911 till 1920 Mother Malachy was stationed in the United States. Her next assignment was as Superior of her order in England. She returned to the United States in 1930 as Superior of the Convent and Novitiate in Providence, R.I. In 1938 she was named Vicar-Provincial, and in 1950 she was elected Provincial.

PASTORS' PAY INCREASES

Presbyterian ministers in the St. Louis Presbytery are the second highest paid in the United Presbyterian Church, U. S. A., according to Monday Morning, a magazine for Presbyterian pastors. The St. Louis average is $7229 a year topped only by Detroit with $7676.

As of last Aug. 1, the average salary of all Presbyterian pastors was $6049 a year, the magazine reports. This is 12 per cent higher than two years ago and 66 per cent higher than 10 years ago.

Liston Wins Decision, but Loses Prestige in Whitehurst Bout

Final Bell Saves Foe From Kayo

By W. J. McGoogan

Charles (Sonny) Liston won and he lost, in prestige, at least, at The Arena last night.

Scoring his fourteenth successive victory, Liston won a unanimous decision over Bert Whitehurst of Baltimore in 10 rounds. And he missed scoring a knockout by just three seconds, for Whitehurst was on the ring apron trying to crawl back in when the final bell sounded at the count of seven.

All of this sounds pretty good for Liston but Whitehurst with a fast moving style, caused Liston no end of trouble.

Liston's lightning fast, powerful left jab was in good working order and it was that weapon with which he defeated the elusive fighter from the East.

But, as Whitehurst rather innocently commented after the bout: "Liston would be a great fighter but he has such a powerful left that he drives you so far back with it that he can't hit you with a right."

Liston All the Way.

Referee Harry Kessler scored the fight 50-37, Judge Howard Hess 50-40 and Fred Connell 48-39.

There was no doubt as to the winner. Liston had it all the way.

He missed only in that he failed to knock out Whitehurst. However at the finish Bert was struggling to get back into the ring from the apron where Liston had knocked him. It took the assistance of his corner men to get Whitehurst back to his chair. He was knocked out, all right, but the bout will go into the record as a decision for Liston, who acted through most of the fight, and after it, as though it was only a serious workout.

While Liston displayed his usual powerful left jab, the right which had been heralded as greatly improved was the same old right he used in his earlier matches here. It was mostly a shove rather than a snappy punch and the general consensus of ringsiders was that Liston still has much to learn before he will prove a worthy foe for Floyd Patterson in a championship contest.

That's not surprising. It was, after all, only his twenty-first match. He has won 20.

Jim Reddick, former national light heavyweight champion and now a city detective, seemed disappointed in Liston.

"A good counter puncher ought to be able to make him forget that left," said Jim. "His right is not worth talking about and he will have to learn a lot more before he's able to tackle Patterson."

Liston, at 25 years of age, has plenty of time to make up the ring skill he lacks.

The outclassed Whitehurst deserves credit for the way he fought Liston. For the second time this year he went the distance with him, even though he was a sad sight at the finish. And he's the only one of Liston's opponents in 1958 to accomplish the feat.

Reynolds Stops Parks.

Joe Reynolds, lightweight hope, scored a third-round technical knockout over Joe Parks of Omaha after experiencing a real scare.

Reynolds was knocked to the floor in the first round for the mandatory 8 count but rallied to fight back gamely in that session. He went on to batter Parks in the second and third rounds and inflicted such a bad cut over his opponent's right eye that Dr. Harold Friedman, after examining the injury at the end of the third round, ordered the bout stopped.

Attendance at the nationally and locally televised fight was 1442 with receipts of $2,830.50.

Fight Results

Rufus Brown, 158½, Louisville, Ky., won six-round split-decision over Cloyed Ketcheside, 156, St. Louis. Referee—Bob Ingham.

Charles (Sonny) Liston, 212½, Philadelphia, won 10-round decision over Bert Whitehurst, 190, Baltimore. Referee—Harry Kessler.

Walter Robinson, 144, St. Louis, won four-round decision over Tim Tierney, 146½, Affton. Referee—Bob Ingham.

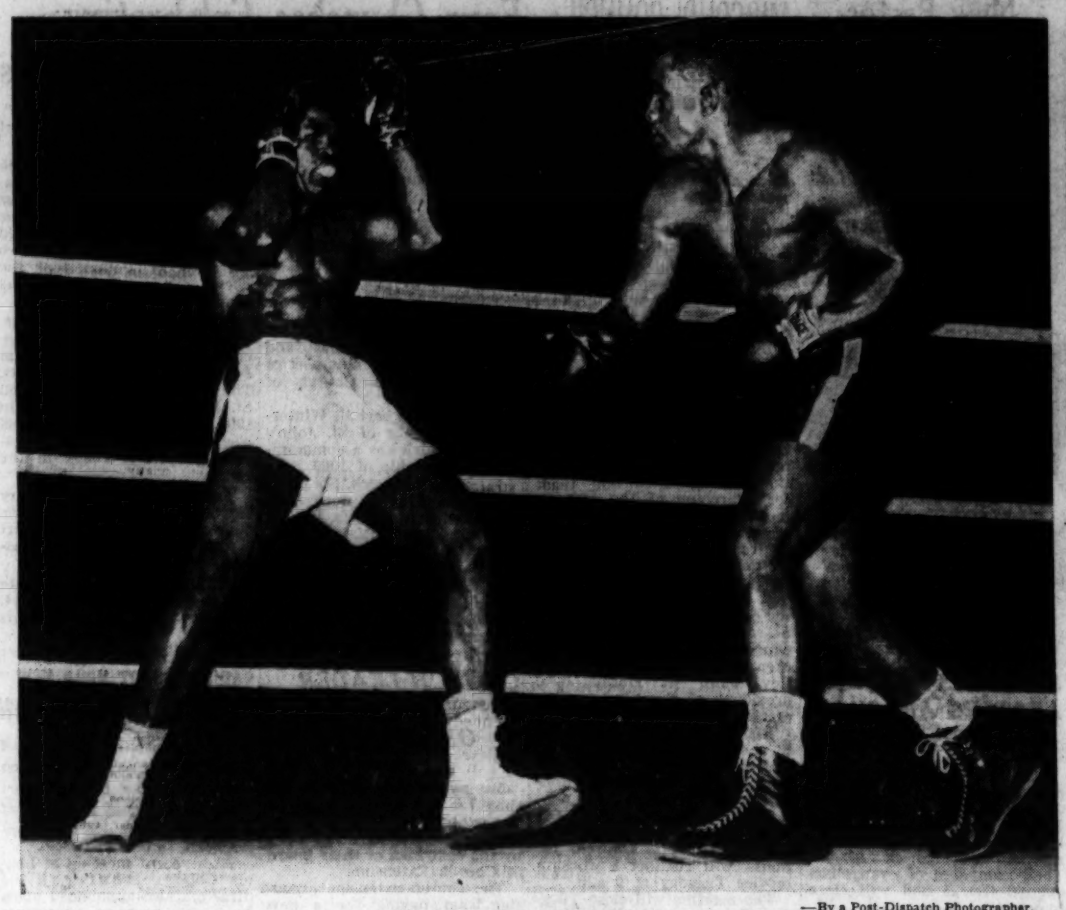
Billy Hunter, 192, New York, stopped Norman Bolden, 197, Detroit, fourth round. Referee—Jimmy Parker.

Ted Meeks, 160, Chicago, won 6-round decision over Al Jones, 152, St. Louis. Referee—Jimmy Parker.

Joe Reynolds, 136, St. Louis, stopped Joe Parks, 132½, Omaha, third round. Referee—Jimmy Parker.

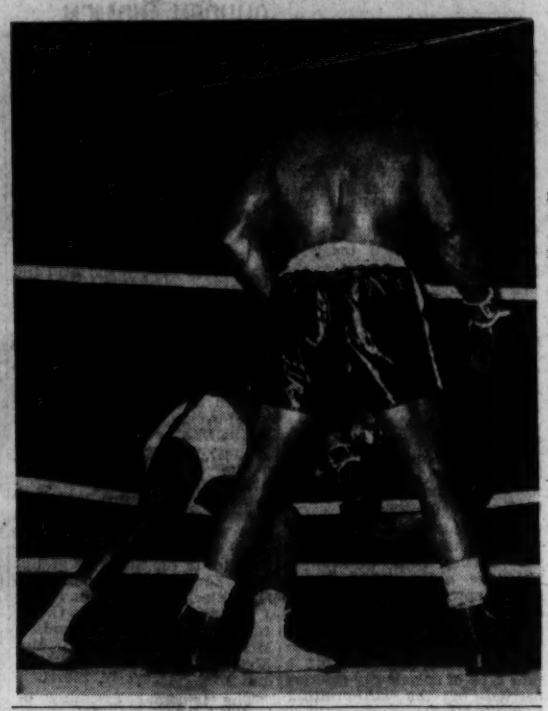
Judges—Fred Connell and Howard Hess.

Whitehurst on Way Through Ropes After Liston Barrage



—By a Post-Dispatch Photographer.

SONNY LISTON, former St. Louis heavyweight who now lives in Philadelphia, sends BERT WHITEHURST of Baltimore into the ropes, in picture above, in the closing seconds of their 10-round fight at The Arena last night. At right Whitehurst is falling through the ropes as Liston watches. The bell ending the bout sounded as Whitehurst attempted to crawl back into the ring, saving him from a knockout by three seconds. Liston was the winner by a unanimous decision, his second victory over Whitehurst.



Baldwin-Wallace's Leading Scorer Is Ruled Ineligible

CLEVELAND, Oct. 25 (AP)—Bob Finowski, Baldwin-Wallace College's leading football scorer with 44 points this season, was declared ineligible by Coach Lee Tressel just before the team's game with St. Vincent last night. It was learned the freshman was a transfer student from the University of Iowa.

Finowski said he had attended Iowa for 10 days in the spring of 1956. Under the National Collegiate Athletic Association ruling, he must serve one year's residency at Baldwin-Wallace before becoming eligible to compete in intercollegiate athletics.

The N.C.A.A. must rule whether the school has to forfeit its games because of the ineligible player. The Yellow Jackets defeated New Haven State, Wittenberg and Buffalo with Finowski scoring six touchdowns in those games.

Last night Baldwin-Wallace combined a terrific passing attack with hard-running for an easy 24-8 victory over St. Vincent College. Baldwin-Wallace Quarterback Chuck Brady, who accounted for 202 of his team's 213 yards gained by passing, tossed one-yard and 49-yard touchdown passes. The other two Baldwin-Wallace touchdowns came on a three-yard run by Dave Adams and a five-yard run by Dick Overla.

Day's Major Games May Cut Unbeaten List to Four Teams

NEW YORK, Oct. 25 (UPI)—After all the shouting and the dust has cleared away late today there may be only four major college football teams in the nation with perfect records—and included among the victims could be Army, Ohio State, Texas and Northwestern.

The top-ranked Cadets play a tough University of Pittsburgh team without the services of Fullback Harry Walters and possibly Halfback Pete Dawkins, too, while the second-ranked Buckeyes tackle Wisconsin banking on all-out performances from four "injured" players.

The oddsmakers have made both Army and Ohio State one touchdown favorites, injuries and all, but weren't quite as optimistic about Texas and Northwestern's chances. They called the Longhorns' game with Rice a "pick 'em" affair and made sixth-ranked Iowa a solid 14-point favorite to topple the Wildcats from the perfect-record ranks.

Should Army, Ohio State, Texas and Northwestern falter, then only Louisiana State, Mississippi, Colorado and Rutgers would remain as the major teams in the country with unblemished records, provided they get by "breather" opponents. L.S.U. is picked by 13 points over Florida State; Ole Miss by 14 over Arkansas; Colorado by 22 over Nebraska and Rutgers over Lehigh.

May Resort To Passes.

Coach Earl Blaik nas indicated that Army will go back to the passing game that proved so successful earlier in the season if Dawkins is unable to see more than spot duty. Blaik said third-stringer Don Bosko will fill in for Walters and Steve Waldrop for Dawkins.

With the running game pretty well nullified, a capacity crowd in Pittsburgh will get a chance to see "Lonesome End" Bill Carpenter, who lines up split about 20 yards from the rest of the Army offensive line, in action. The Panthers, who pass quite a deal themselves, have two complete interchangeable backfield units to throw at the Cadets.

Ohio State's injured include Halfback Don Clark, Fullback Bob White, Center Don Fronk and Tackle Jim Tryer. All four have been named to start by Coach Woody Hayes, but it is doubtful that they will be in there for more than spot duty.

Wisconsin, a pretender to the Big Ten title and the Rose Bowl berth that goes with it, was topped by Iowa last week, but has the equipment for an upset.

Fourth-ranked Texas's chances of staying alive hinge on Rice's ability or inability to pull off an upset in a conference known for its form reversals. The Owls' only conference loss last year was to Texas and there isn't a thing they'd like more than to turn the tables on the Longhorns this year.

Iowa One of Best.

Northwestern gained its biggest victory of the season last week by routing Michigan after beating three "easy" opponents The Wildcats may have more than they can handle in the Hawkeyes, one of the top teams in the Midwest.

There are a number of other interesting pairings around the nation. Third-ranked Auburn goes back to work against Maryland; Navy tries to reverse itself against Penn; Oklahoma, an easy winner over Kansas last Saturday, goes for the championship of the Sunflower state against Kansas State; and Washington State meets Southern California in the far West.

Other leading games by sections:

EAST—Princeton at Cornell and Dartmouth at Harvard in Ivy League play, Miami (Fla.) at Boston College, Syracuse at Penn State and Richmond at Villanova.

SOUTH — North Carolina State at Duke, Kentucky at Georgia, Alabama at Mississippi State, Florida State at Tennessee.

MIDWEST — Minnesota at Michigan State in a Big Ten meeting, Miami (O.) at Indiana, College of Pacific at Marquette, Tulane at Kansas.

SOUTHWEST—Texas A.&M. at Baylor, Georgia Tech at Southern Methodist, Wichita at Hardin-Simmons.

FAR WEST—Utah at Air Force Academy, Stanford at U.C.L.A., Idaho at Arizona, Oregon State vs. Washington at Portland, New Mexico at Wyoming.

Bears Oppose W-L; Mizzou and Illinois In League Battles

All the favorite college teams of local football fans can use some of the Luck of the Irish today—including Notre Dame.

Notre Dame plays Purdue at South Bend; Missouri is host to Iowa State at Columbia; Illinois plays its homecoming game against Michigan State at Champaign, and Washington University will meet Washington and Lee at Francis Field. There is a good day's work cut out on all four home fields mentioned.

Missouri has a 2-and-3 record. So does Iowa State, but Mizzou is healthy in the Big Eight Conference standings with a 1-and-0 record. Iowa State's defeats all have occurred in Conference play. Iowa State has proved itself a difficult team, but lacking in depth. Mizzou is bolstered by the return to duty of hard-running Hank Kuhlmann.

Illinois won last week, its first victory in four games. If the impetus carries over, the Illini may be capable of contriving an upset of the Spartans.

Washington University's Bears are expected to recover from a two-game losing streak. Washington and Lee, however, is a stronger team than it has been the past several years, when it was an easy mark for the Bears.

Notre Dame is a three-point favorite against Purdue. A capacity crowd of 58,000 was expected for the game, which is the Irish Homecoming feature.

True to His Name

BUTZOW, Mo., Oct. 25 (AP)—Carl Hunter of Washington, Mo., yesterday killed the first deer felled in Warren county during the bow and arrow season.

Hawks Play Pistons in Loop Game

DETROIT, Oct. 25 — The champion St. Louis Hawks, winners in their opening National Basketball Association game by a single point, oppose the Detroit Pistons at the Coliseum here tonight.

In the first meeting of the two quintets at St. Louis, Thursday night, the Hawks, after gaining an 18-point lead, nearly blew the advantage, but triumphed, 104-103.

For tonight's match, Coach Andy Phillip of the Hawks has announced that Al Ferrari will guard George Yardley, who scored 28 points in the St. Louis game.

Following the contest, the Hawks will rest until next Wednesday, when they play at Minneapolis. Their next at-home game is with the Lakers, Nov. 1.

Finsterwald Retains Golf Tourney Lead

NAPLES, Fla., Oct. 25 (UPI)—Dow Finsterwald of Tequesta, cooled down somewhat yesterday but managed to keep hold of his one-stroke lead in the second round of the Florida Professional Golf Association tournament

Finsterwald, player of the year, fired a 34-36 for a two under par 70, giving him a 136 total. He shot a six under par 66 Thursday.

Staying right with him was Henry Castillo of Tampa, who fired a 36-34—70 and a 137 total. In third place was Pete Cooper, defending champion from Lakeland, with a 35-35—70 and 140 for two rounds.

Finsterwald bogeyed the fourteenth, sixteenth and seventeenth holes, the only times in the tournament he failed to shoot par on any hole.

Paul McGuire, Crystal River, and Ed Furgol of Miami, were tied at 139. Knotted at 141 were Ted Kroll, Sarasota, Sonny Rouse, Miami Beach, and Henry Linder, West Palm Beach.

Senior Golf Final

PINEHURST, N.C., Oct. 25 (AP)—Jack Brittain Sr. of Woodhaven, N.Y., and J. Wolcott Brown of Sea Girt, N.J., won semifinal matches in the North and South seniors golf tournament by identical 3 and 2 scores. They will meet today for the championship. Brittain defeated James H. McAlvin of Lake Forest, Ill., and Brown eliminated Frederick Holmes of Riviera Beach, Fla.

Missouri Freshmen Defeated

By Jack Rice

Of the Post-Dispatch Staff.

COLUMBIA, Mo., Oct. 25—Clay Cooper, the suave and still-young veteran of the Missouri University coaching staff, is just one of the boys again in the athletic department offices. His undefeated string has been ended.

Cooper is coach of the freshman football team, 'the boys who brave the varsity in weekday practices. Yesterday at Memorial Stadium, Cooper's youths braved the Iowa State Freshmen. The Missouri freshmen were defeated, 8 to 6, the first defeat for a Cooper freshman team since 1957. Iowa State freshmen were blamed then, too.

Yesterday's game was the first for the 1958 Missouri frosh. Iowa State freshmen were salty old veterans of one whole game's experience, a defeat by Nebraska frosh.

Mizzou's Larry Megown, from Centralia, scored on an 84-yard punt return in the first period. A conversion attempt for the extra point failed. Iowa State's Dave Mongeau received an 11-yard pass from Ed Meyer in the second quarter for a touchdown and Meyer passed to Jerry Maes for two points after touchdown.

A scoreless second half was distinguished by a Mizzou pass dropped in the end zone, and the running of Iowa State's Joe Burden, a Negro wingback from Portsmouth, Va. Next season Burden will be the varsity's worry, not Cooper's. He seems to have the makings of quite a worry to other Big Eight teams.

The lineups:

MISSOURI	IOWA STATE
E — McCartney, Leslie, Woodard, Shara, Smith, Bukowsky.	E — Mongean, Plummer, McGinty, Knopioh, Woodburn.
T—Allach, Gebott, Kdlec, Mullane, Thompson, Gardner.	T—Graham, Janvrin, Clxzewski, Waterman, McNally, Perez, Fauser.
G—Henley, Garvis, Hillson, Schueler, Dobbs, Coen.	G—Scarpone, Carpenter, Vogelman, Schullenberger, Wittman.
C—Blaine, Van Orman, Crum, Williams.	C—Barr, Spelman, Simon.

Trainer Suspended For Two Years

TRENTON, N.J., Oct. 25 (UPI)—The New Jersey Racing Commission suspended Trainer Arthur Brondson of Canton, Mass., for two years on a charge of administering cocaine to his horse "Sim Penny" in a race at the Atlantic City track Sept. 20.

Brondson's horse finished second in the second race. The commission also suspended, for three months, groom John A. Harris of Hallendale, Fla. Both suspensions will date from Sept. 21.

Louisiana School Star Gets 6 TDs; Gains 345 Yards

NEW ORLEANS, Oct. 25 (UPI)—A Louisiana prep star put on a brilliant display of broken field running last night as he scored six times on runs of not less than 30 yards and gained a total of 345 yards.

Eddy Ellzey, St. Martin High halfback, scored on scrimmage runs of 65, 30, 63 and 40 yards and also returned two punts for 75 and 70 yards as his team defeated St. Bernard High School, 40-6.

Birds Win; Three Hits For Musial

TOKYO, Oct. 25 (AP)—The St. Louis Cardinals slaughtered three ptichers with 13 hits today to win their second game from Japan's All-Star baseball team, 8 to 2, in a rainswept game called after six innings.

Stan (The Man) Musial got a three bagger and two singles in four tries. He scored one run and batted in another.

A four-run blast in the fourth chased Japan's sensational Kazuhisa (Ironman) Inao, hero of the Japan "world" series, from the mound and also sent Takao Kajimoto to the showers.

Winning pitcher Larry Jackson doubled in one run, Don Blasingame singled in another, Musial's single produced a third and Joe Cunningham doubled around the fourth.

Hawaiian Bill Nishida came in and halted the uprising, yielding only one further Cardinal run—Ken Boyer's sixth inning score on Cunningham's grounder to second after stealing both second and third.

Futoshi Nakanishi, All-Star first baseman, belted a solo homer into centerfield in the fourth off Jackson. Rightfielder Jack Ladra of Hawaii, doubled to center to score Shigeo Nagashima for the other Japanese run in the sixth.

The Cardinals scored twice in the second on Alex Grammas's single and Blasingame's double and again in the third on Boyer's sacrifice fly after Musial had belted his three-sacker.

The All-Stars and Cardinals meet again here Sunday.

Innings—	1	2	3	4	5	6	R.	H.	E.
Cardinals	0	2	1	4	0	1	8	13	0
All Japan	0	0	0	1	0	1	2	4	2

(Called, rain.)

Batteries: Jackson and Green, Smith (6); Inao, Kajimoto (4), Nishida (4) and Nomura. L—Inao. Home run—All Stars, Nakanishi.

First Landing Rules As Favorite for World's Richest Race

CAMDEN, N.J., Oct. 25 (UPI)—The two-year-old championship, possibly the "horse of the year" title and a $297,250 pot of gold are up for grabs today at Garden State Park where 13 young horses battle in the Garden State Stakes, the world's richest horse race.

Favored in this one mile and one-sixteenth struggle for a winner's gross purse of $178,350 was First Landing, the powerful and swift juvenile owned by Christopher T. Chenery. First Landing, with Eddie Arcaro in the saddle, was favored at 8 to 5 to add the Garden State Stakes to his ever-growing list of stakes victories and cinch the two-year-old championship.

And since there are no standouts in the other divisions, victory could give First Landing the thoroughbred championship of 1958, an honor usually reserved for older horses.

Beaten Only Once.

Only once in 10 races has First Landing, a son of Turn-To, which won the inaugural running of the race in 1953, been beaten. He was second behind Brookfield Farm's Intentionally in the Futurity Stakes at Belmont Park, but avenged that defeat by beating Intentionally in the Champagne Stakes.

But Intentionally was not expected to give First Landing his severest test in the race. Tomy Lee, the champion from the West Coast who has lost only once in seven races, rules second choice at 3 to 1.

Tomy Lee's only defeat came in the Champagne where he finished second, but was disqualified for failing to maintain a straight course and placed third. Shoemaker was aboard Tomy Lee when the English-bred colt won the Haggin, the Charles S. Howard, the Starlet and the Del Mar Futurity.

Intentionally, owned by Brookfield Farm, is back for another shot at First Landing and Tomy Lee, with Elson Nelson up.

Intentionally Held at 8-1.

Intentionally was an 8 to 1 third choice, while Charfran Stable's Crafty Skipper, with Bobby Ussery, was 10 to 1. In addition to the Futurity, Intentionally won the Tyro Stakes, while Crafty Skipper scored his big win of the year in the Cowdin Stakes.

There were four other stakes winners in the field—Llangollen Farm's Restless Wind, Poltex Stable's Winsome Winner, T. Alie Grissom's Namon and Brookmeade Stable's Sword Dancer.

Restless Wind, to be ridden by Jack Leonard, has the most impressive record of the four. He has won the National Stallion, the Tremont, the Prairie State, the Arlington Futurity and the Washington Park Futurity. His earnings total $290,048, topping the $221,970 won by First Landing.

If either Restless Wind, whose recent races have been below his earlier form, or First Landing win, they would set a new record for earnings by a two-year-old surpassing the $349,642 won by Jewel's Reward last year. Winsome Winner and Namon scorde their stakes victories in Kentucky, while Sword Dancer won in New England.

Winsome Winner, who scored in the Kentucky Jockey Club Stakes, will be ridden by Steve Brooks; Namon, winner of the Breeders Futurity, will be handled by Jim Combest, and Eric Guerin handles Sword Dancer, winner of the Mayflower Stakes.

Sherry Prince (Ismael Valenzuela), Black Hills (William Hartack), Carolina Joy (Keith Stuart), Rico Tesio (Howard Grant) and Moon Age (Sam Boulmetis) complete the field.

Probable Field

CAMDEN, N.J., Oct. 25 (UPI) — The field for the sixth running of the $297,250 Garden State Stakes, listed in order of post positions, follows:

Horse.	Jockey.	Odds.
Sherry Prince, I. Valenzuela	—	20-1
sSword Dancer, E. Guerin	—	15-1
Black Hills, W. Hartack	—	15-1
sWindsome Winner, S. Brooks	—	25-1
fCarolina Joy, K. Stuart	—	30-1
First Landing, E. Arcaro	—	8-5
Rico Tesio, H. Grant	—	15-1
Crafty Skipper, R. Ussery	—	10-1
sNamon, J. Combest	—	20-1
Intentionally, E. Nelson	—	8-1
Tomy Lee, W. Shoemaker	—	3-1
fMoon Age, S. Boulmetis	—	50-1
sRestless Wind, J. Leonard	—	15-1

sSupplementary nomination. All carry 122 pounds, one and one-sixteenth miles.

fMutuel field.

Gross value $297,250. Gross value to winner $178,350; to second $59,450; to third $29,725; to fourth $14,862.50; among breeders of first four finishers $14,862.50.

Team Loses Eight Scores on Penalties

C.B.C.'s freshman football team won its game from the DuBourg Frosh, 15-0, but lost eight touchdowns as a result of penalties. Offsides, backfield in motion and illegal use of hands were the principal causes of the penalties.

A 40 yard run by Dick O'Brien gave the winners one touchdown, while Joe Butler tallied on a 28 yard run after intercepting a forward pass. C.B.C. also counted on a safety.

Missouri Pacer Wins at Yonkers

YONKERS, N.Y., Oct. 25 (AP)—Santa Chief, an 8-year-old gelding driven by Charles Fleming, took command at the start and went on to win the AA Pace by a neck over Laura Scott at Yonkers Raceway. Time for the mile was 2:05.

The winner, owned by Charles Wilson of Independence, Mo., returned $5.10 as favorite. This was the gelding's fourth win. Ike Forst finished third.

Morze Sidelined

SAN FRANCISCO, Oct. 25 (UPI)—Frank Morze, 270-pound center for the San Francisco Forty Niners, has been sidelined, possibly for the remainder of the season, it was disclosed today. Morze suffered torn knee ligaments in the game against the Philadelphia Eagles last Sunday and will be definitely out of play for "four or five weeks."

Remember? 5...15...25 Years Ago

1953—Coach Frank Leahy became so ill at halftime he was rushed to a hospital, but his Notre Dame football team went on to hand Georgia Tech a 27-14 defeat, the Rambling Wreck's first in 31 games.

1943—Three former Washington University players, Fullback Lee Tevis, Center Pete Wismann and Tackle George Fuchs, were starring for Miami of Ohio.

1933—Arthur E. (Artie) Eilers, who organized the first Washington U. swimming team in 1923 before Wilson Pool was built, was named freshman and varsity coach of swimming on the Hilltop. He previously coached the Bears to championships in 1928-29.

Hey! Duck Hunters!

A large high pressure area covers most of southern Canada and the northern portion of the United States. Generally fair skies and temperatures in the low 40s persist in the lower provinces of Canada westward from the Great Lakes area. In the Great Lakes area, it was cloudy and drizzling this morning with temperatures in the 40s.

Surface winds are mostly light northwesterly through the Mississippi Valley.

The only area of below freezing weather is in extreme northwestern Canada, and the prospect of this weather moving down into the lower portion of Canada is very slight at this time.

Shooting hours tomorrow: 5:51 a.m. to 5:08 p.m. (Central Standard time).

(Supplied by U.S. Weather Bureau.)

Conley Gets OK to Play Basketball

MILWAUKEE, Oct. 25 (UPI)—Long Gene Conley can shoot baskets with a clear conscience tonight for the Boston Celtics because his Milwaukee Braves' bosses have given him the okay to play basketball.

The Braves' top three officials—President Joseph Cairnes, Executive Vice President Birdie Tebbetts and General Manager John Quinn—gave the go-ahead to Conley yesterday after a huddle about the matter. Conley's contract with the baseball team says he can't play in another sport like basketball without permission.

The Braves said they decided to let Conley perform on the courts because it was felt he has a profesional basketball background "which is not common to every baseball player." He played with Celtics in 1952-53 before turning to baseball only.

Conley signed with the Celtics Thursday, at which time Quinn said he had violated his baseball contract.

Conley, 6-foot-9, suffered through a 0-6 baseball season, and was troubled with a sore arm.

East St. Louis Routs Alton's Eleven, 33 to 6

Victory No. 3 in Loop Play

By Harold Tuthill

Alton High got the first break but East St. Louis had the last say in the meeting of the Southern Illinois football powerhouses on the Public Schools gridiron in Alton last night.

Elgie Pogey's host Redbirds almost caught the undefeated Flyers by surprise shortly after the opening kickoff when they recovered a fumble at the East St. Louis 37 as the Alton rooters in the crowd of 6000 howled with glee.

They cheered some more as Mike Hunter led the Birds down to the 22, but the tide turned when the Alton quarterback was unable to find a receiver open on a pass formation and he was downed on his 34. Later in the period, Hunter was unable to get off a punt because of a bad pass from center, East St. Louis taking over at the Alton 40 and moving downfield to its first of five touchdowns in a game which many figured would be decided by a point or two and finally ended, 33-6, in favor of East St. Louis.

Two TDs for Terry.

East St. Louis ran and passed deftly as fleet Willie Terry scored two touchdowns, one on a 59 sprint after taking a pitchout from Steve Sandler in the third quarter. Harold Knepper was the first to score. He went over once, but the ball was called back, so the second time he lugged it over from the one-yard line with 51 seconds left in the opening quarter. Bill Biggins booted his first of three placements.

Terry, on a quick opener good for 40 yards and a first down at the Alton 15, set up the Flyers' second quarter score. The team moved downfield and Terry went over from the one.

Alton flashed some of its power on a sustained drive from its 46, but the advance crumbled when Gary Burmester dropped a fourth down Hunter pass in the end zone, leaving East St. Louis ahead at the half, 14-0.

Even after Terry gave East St. Louis a 21-0 lead with his third quarter TD and Biggins's conversion, Alton tried to come back, a 65-yard kickoff return by Art Davis putting the ball on the Orange and Blue 14. Floyd Raglin took a handoff from Tom Borman for the tally. The try for the extra point was fumbled.

East St. Louis improved its consistent scoring of a TD per quarter with two in the final 12 minutes. To start the period, Sandler passed to big Don Brooks for 41 yards and a tally.

12-Yard Pass Pays Off.

Near the end of the game Bob Scharbert of East St. Louis tried a field goal from the 24-yard line, but the effort was short. About a minute later, the Flyers recovered a fumble at the same spot and scored once more, the payoff coming on a 12-yard pass from Sandler to Cloyd Webb, the other Flyer end.

With just seconds left Alton threatened again, but Raglin's run across the goal line from the 18 was called back and the Redbirds penalized five yards. An incompleted pass then ended the game.

The victory was the sixth straight for Fred Cameron's Flyers, who now are 3-0 in the Southwestern Conference where everybody else has been beaten at least once. Alton is 3-1 in the league and 5-2 overall.

Edwardsville moved ahead of Granite City with a 2-0 victory over the Warriors when Granite City's Ron Ruppel was downed in the end zone for a fourth quarter safety. That made Edwardsville's Conference record 3-2 as compared to 2-2 for Granite City and Collinsville which won from Wood River, 19-7.

Belleville, the seventh S.W. member, bowed to city rival Cathedral, 14-13, as the victors scored on a 61-yard pass play from Bob Zahn to Ed Lange and Les Cole ran 14 yards for the other TD. Plunges by Zahn and Paul Flach accounted for the winning margin.

Meredith, S.M.U. Ace, May See Action

DALLAS, Oct. 25 (AP)—Southern Methodist's ace quarterback, Don Meredith, may return to action today when the Methodists play Georgia Tech in the Cotton Bowl.

It depends on whether he's actually needed — whether there's a spot he can be used to further the SMU chances. If Georgia Tech dominates the game, Meredith won't be used. If SMU should dominate it Meredith won't go in.

Coach Bill Meek said the passing star, who has missed two games because of a hip injury, looked good in a workout and he thought Meredith might be used for spot duty if necessary.

PLACE—St. Louis House, 2345 Lafayette av.

Vashon Runners Triumph

Seven St. Louis area schools yesterday qualified for next Friday's state cross-country run. The leading team was Vashon which scored 26 points to 66 for runner-up Beaumont over the state course in Forest Park.

Other teams which qualified are Kirkwood, 131; Hadley Tech, 151; Sumner, 208; Normandy, 214 and Cleveland, 224.

The best time was turned in by Beaumont's Jim Harmon, 10:10. Of the 20 individuals who qualified, five ran on teams which were eighth or lower. They are Walter Greer, Kinloch, sixth; John Reilly, C.B.C., seventh; James Abernathy, Soldan, 14; Jerry Mulkey, Southwest, 16; Robert Franklin, 19.

Qualifying teams:
VASHON (26)—Aaron Virdure, 2; Cleon Morton, 3; Wilber McAllister, 4; Louis Virdure, 5; R. Wease, 12.
BEAUMONT (66)—Jim Harmon, 1; Bob DePriest, 11; Jack Stewart, 15; Tom Grube, 17; Warren Hogan, 22.
KIRKWOOD (131)—Bob Press, 10; Carl Larue, 18; Leo Pearce, 21; Bill Spiller, 32; Dan Schmidt, 50.
HADLEY TECH (151) — Marlon Jones, 9; Leroy Hunt, 20; Sam McDavis, 34; Michael Williams, 40; Larry Hudson, 48.
SUMNER (208) — Walter Abernathy, 8; Monroe Ewing, 37; Michael Green, 47; Claude Turner, 56; Donald Cross, 60.
NORMANDY (214)—Bob Hinman, 13; Bob Kennedy, 23; Charles Lowery, 55; Malcolm Sunkel, 58; Wayne Chambers, 65.
CLEVELAND (224) — Al Kemp, 28; Bill Martin, 33; Jim Warner, 39; Herb Lehner, 52; Bob Lindecke, 72.
OTHER TEAMS ENTERED WERE—C.B.C., 254; University City 257; Southwest, 288; Soldan, 297; Ladue, 320; Central, 341; Ferguson, 352; Kinlock, 359; O'Fallon Tech, 391; Riverview, 406; McKinley, 520; Roosevelt, 570; Lutheran South, 679.

Eight American Horses in Canada's Championship Race

TORONTO, Oct. 25 (AP)—Twelve horses who have more than paid for their oats have been named to start in today's $50,000-added Canadian championship at New Woodbine. The prediction is the winner's share of Canada's richest race will go to a United States-owned horse.

Owners made the final $500 payment and included in the list were eight Americans. The race is at one mile-and-five-furlongs over a grass course.

The winner will earn $35,000 and co-favorites probably will be Civet, five-year-old stakes winner who has been in the money in 10 of his 15 starts, and the entry of Ekaba, Jack Ketch and Mahan from the Hasty House Farms of Toledo, Ohio. Civet is owned by E. Austin Byrne of Mount Kisko, N.Y.

Other American-owned horses nominated: Andrew Alan, three-year-old son of Stymie, owned and trained by Hirsch Jacobs; Bell Hop, French-bred three-year-old who has won three of his 13 starts this season and owned by J. M. Schiff of New York; One-Eyed King, four-year-old son of Nasrullah from Capt. Harry F. Guggenheim's Cain Hoy Stable, and Spinney, 1957 Canadian championship winner owned by Louis Rowan of Los Angeles, Calif.

Race Driver Dies

LONDON, Oct. 25 (UPI)—British racing driver Stuart Lewis-Evans, badly burned in the Moroccan Grand Prix last Sunday, died in the Queen Victoria Hospital, East Grinstead, today.

Lewis-Evans was driving a British Vanwall when it skidded on an oil patch and burst into flames. The 28-year-old driver leaped out, but his clothes caught fire and he was badly burned.

He was flown to London from Casablanca in a special plane fitted out as an emergency ambulance.

Hoc-Soc Results

The Leos and Smiths played to a 4-4 tie and the Chiefs trimmed the Ma-Jos, 3-2, in the Neighborhood Association Hoc-Soc League. Don Krome of the Leos and Dick Pisani of the Smiths each scored two goals.

Irish Horses Arrive

NEW YORK, Oct. 25 (UPI)—A trio of Irish-bred race horses purchased by J. E. O'Connell of Boston, arrived here yesterday. The three thoroughbreds, valued at $30,000, included the offspring of a French Derby winner. The chestnut yearling reportedly sold for $23,000.

Ladue's Late Rally Defeats Normandy

By Bob Posen

When Normandy led Ladue, 14-13, at the start of the fourth quarter of their football game last night, more than one Rams' fan must have shuddered at the thought of the 1957 score between the teams. Normandy won last year's game by that same score, 14-13, for the only defeat suffered by Ladue.

But within the next couple of minutes such thoughts vanished as the Rams charged 60 yards in four plays to a touchdown that held up for a 19-14 victory by undefeated and untied Ladue.

Andy Russell crashed through the middle of the line for the last yard after setting up the TD with a 37-yard run to the Normandy four-yard line. An offside penalty against the Vikings came between the two runs by Russell. The lanky fullback, known to his teammates as "The Horse," scored all three Ladue touchdowns.

The last TD, giving the Rams the lead for the first time in the game—they trailed, 14-6, in the third quarter—seemed to perk up Ladue's defense to hit harder than ever, and Normandy didn't cross midfield with the ball in the fourth period. When the game ended the Rams were threatening to score again from the Vikings' seven.

Fast Start by Vikings.

Seven major penalties were called—four against Ladue and three against Normandy. Two of them stopped the Rams from rolling in the first quarter after the Vikings marched 60 yards from the opening kickoff to a touchdown. Fullback Vince Giardano ran six yards for the score, and Bob Allendorf kicked the extra point.

Russell took a pitchout from a tackled teammate and ran about 50 yards to the end zone on one of the 15-yard penalty plays against Ladue, but even without the penalty his run wouldn't have counted. Referee Clair Houston said the runner was down before he lateraled to Russell.

80-Yard March by Rams.

The Rams made an 80-yard drive early in the second period. Rusty Turmail passed 19 yards to Bob Leutwiler for the longest gain. A 15-yard personal foul penalty put the ball on the Vikings' seven, and Russell scored from there. Bob Fischmann's kick was low, and Ladue trailed, 7-6.

Gary Bridell recovered a Ladue fumble early in the third period at the Rams' 41. Giardano and Wes Faser punched out most of the gains, and Jim Terral carried the final five yards. Allendorf's kick gave Normandy a 14-6 lead.

A 28-yard kickoff return by Turmail set off the Rams again. Mike Bottom's 19-yard burst was the longest gain from scrimmage on a 68-yard drive that ended with Russell going five yards around end. This time Fischmann's kick was good.

With Ladue's defense getting tougher, Normandy quick-kicked near the end of the third quarter. The Rams took over on their 35 and started the drive that won the game.

Now just Brentwood and Clayton stand in the way of an all-victorious season for Ladue, defending Middle Five champion. Normandy, the Big Six champion in '57, has lost three straight after winning its first three games this season.

U. City Drubs Western.

University City, the suburban Big Six leader which beat Normandy, 20-0, last week after losing to Ladue, 7-6, rolled over Western Military Academy yesterday, 34-0. Bernie Feinstein scored the first three U. City touchdowns, one on an 87-yard punt return.

St. Louis U. High defeated Ritenour, 14-7. Tackle Pat Kennedy ran 55 yards in the second quarter for a Junior Billiken score after he caught a ball knocked out of a Ritenour passer's hand. The score was 7-0 until the fourth quarter when Campbell McCaskill plunged three yards for St. Louis and Larry Albus kicked his second extra point.

Jerry Maxey later plunged for Ritenour's TD. The Huskies again played without injured star quarterback Ron Hunt.

Webster Beats Hickman.

Webster Groves marched 60 yards for the score that broke a 14-14 tie with three minutes to play, giving the Statesmen a 20-14 triumph over Hickman of Columbia. Jay Carlin went over from the nine. Earlier in the fourth quarter Jon Earnhardt capped a 76-yard Webster advance with a 22-yard gain on a crossbuck for his second touchdown. Nelson Crenshaw went around right end for the extra point that tied the score at 14.

Hickman scored in the first quarter after recovering a fumble at the Webster 40. A 22-yard pass from James Winscott to James Baldwin put the ball on the 11. Winscott scored from the three and Hugh Barnes kicked the extra point. A Hickman fumble at the Kewpies' 19 gave Webster the chance to even the score in the second period. Earnhardt went over from the four and Carlin plunged for the extra point.

Another Hickman recovery of a Webster fumble, this one near midfield, preceded a Kewpie touchdown drive which also was aided by a 15-yard penalty. Dave Ridge went the final four yards and Barnes's kick made the halftime score 14-7 in Columbia's favor.

Bob Early scored two touchdowns for Maplewood, 36-7 winner over Brentwood.

McBride scored its second victory in six days, 19-6, over Laboure in Catholic Athletic Conference action.

Fumble Aids In Colonials' Upset Win

WASHINGTON, Oct. 25 (UPI) — George Washington University capitalized on a William and Mary fumble with 45 seconds left in the first half to score a 7-0 upset victory in a Southern Conference game last night.

William and Mary, which upset North Carolina State, 13-6, could roll up a net gain of only 37 yards on the ground against the rugged Colonial defense.

The Colonials' second team backfield took advantage of a fumble by W. and M.'s Ben Johnson when a low pass from center caused him to drop the ball while trying to punt. End Don Herman and Tackle Ed Rutsch pounced on the ball on the 14.

Quarterback Ed Hino, gave the ball to Halfback Tom Haly, who picked up three yards on a left tackle power play. Halfback Ted Colna then streaked around right end to the Indian one-yard line.

Fullback Duane Whetstone took the next play up the middle and leaped over for the score and sophomore Center Bob Barbiere kicked the point.

The Colonials threatened to score again after they intercepted a William and Mary pass on the visitors' 23-yard line with two minutes left in the game. In six running plays the winners carried the ball to the Indian's three-yard line. But Haly was stopped on the five-yard line on the final play of the game.

William and Mary failed to take advantage of two scoring opportunities presented by fumbles.

K.O. for Radcliff

SAN DIEGO, Calif., Oct. 25 (AP)—Monroe Ratliff, San Diego heavyweight, knocked out Tony Emanuel of Los Angeles, in the ninth round of a scheduled 10-round main event at the Coliseum last night. Ratliff weighed 185 pounds for the close, hard-fought bout, while Emanuel came in at 209.

Baskets Clinic

A basketball clinic for C.Y.C. managers and referees will be held at Rosati-Kain High School, Lindell and Newstead, Monday evening starting at 8 o'clock. Ed Macauley of the champion Hawks; Tom Stanton, Beaumont coach and D. C. Wilcutt, C.B.C. coach, will conduct the clinic.

667 Yearlings Bring $1,876,000

LEXINGTON, Ky., Oct. 25 (AP)—Sixty-six head brought $228,100 last night as the annual keeneland fall sale of yearling thoroughbreds ended.

Totals for the sales showed 667 head sold for $1,876,400, an average of $2,813.

Top price of the final sale was $25,000, paid by Tommy Gentry, agent, for a bay colt by Helioscope-Spindrift, from the consignment of Woodvale Farm.

Hurstland Farm, acting as an agent, paid $18,000 for a bay filly by Royal Charger-Marta from the same consignment.

Another bay filly from the Woodvale consignment was sold to David S. Marks for $10,300. This filly was by Polynesian-Mother India.

Argentine Horse In Laurel Race

LAUREL, Md., Oct. 25 (UPI)—Revoque, a highly-regarded three-year-old from Argentina, today joined the field for the Nov. 11 running of the $100,000 Washington D.C. International.

The South American horse, seventh to be named for the mile and one-half turf classic, will be flown from Buenos Aires on Monday and arrive at Friendship Airport near Baltimore, Md., Tuesday.

He is owned by Dr. Erwin Wasserman of Buenos Aires.

Other horses already named for the International are Clem from the United States; Ballymoss, the European champion from Ireland; Orsini from Germany; Sailor's Guide from Australia, and Garnyr and Zaryad from Russia.

Weightlifters Meet

The annual Missouri state weightlifting championships will be held at the Boys Club, 915 Lafayette, Nov. 23. For information call Joe Joseph, CH 1-6167.

INQUIRY INTO RED-RUN STATE IN INDIA URGED

HYDERABAD, India, Oct. 25 (UPI)—A committee of the governing Congress party urged the government today to take "strong note" of what it called "growing insecurity and lawlessness" in Communist-run Kerala State.

The committee adopted a resolution accusing the Reds of discriminating against non-Communists in Kerala and asking for immediate action by the national government to prevent the Reds from making the life of the people insecure.

LANA TURNER'S DAUGHTER ATTENDING PUBLIC SCHOOL

BEVERLY HILLS, Calif., Oct. 25 (AP)—Lana Turner's daughter, 15-year-old Cheryl Crane, who fatally stabbed her mother's sweetheart, Johnny Stompanato, six months ago, is now a student at Beverly Hills High School.

"She is very quiet and apparently happy here," a school official reported yesterday. "And she is a good student."

A sophomore, Cheryl usually is driven to and from the school daily. Under court order she lives with her grandmother, Mrs. Mildred Turner. Cheryl formerly attended a private school in Ojai, Calif.

The stabbing of Stompanato, former bodyguard of ex-gambler Mickey Cohen, occurring during an argument between Miss Turner and Stompanato in a bedroom of the actress's home. A coroner's jury called it justifiable homicide.

ARKANSAS FREE TO AID PUPILS WHO MOVED

LITTLE ROCK, Ark., Oct. 25 (UPI)—The Arkansas State Board of Education was free today to pay the tuition of displaced Little Rock high school students who have moved to other accredited public or private schools.

State Attorney General Bruce Bennett held in an opinion yesterday that it is "mandatory" for state aid to be withheld from a school closed by executive order but it may be given to other schools enrolling the students.

His opinion was given at the request of the State Board of Education for an interpretation of acts passed by a special session of the Legislature, authorizing Gov. Orval E. Faubus to close integrated schools.

Additional Ruling.

The opinion said also that the department can withhold state aid or allocate it to accredited public or non-profit, private schools without violating a restraining order of the Eighth United States Circuit Court of Appeals.

The court had forbidden the Little Rock school district to transfer four high schools to the Little Rock Private School Corp.

Gov. Faubus prevented the opening of the schools eight weeks ago, and has accused the National Association for the Advancement of Colored People and the Federal Government of keeping them closed.

Education department officials said they would send state aid in the form of tuition to eligible school districts as soon as requests for it are made.

Education Commissioner Arch W. Ford said state aid could not go immediately to the school set up by the Little Rock Private School Corp. because it is not accredited.

Ford said, however, the school could get tentative acceptance as soon as it was in full operation, but the corporation could not get state funds until the school had operated for a full year.

N.A.A.C.P. Study Likely.

What action the N.A.A.C.P. might take to prevent the transfer of state aid was a question today. Mrs. L. C. Bates of Little Rock, president of the Arkansas chapter of the N.A.A.C.P., said she was sure attorneys would "look into" the possibility of blocking the payments.

Ouachita Baptist College officers said they would not ask for state aid for their private school which opens classes Monday at three grade levels for about 350 students. About 500 students pre-enrolled at the school earlier this week, but Principal J. W. Cady said 150 did not show up for final enrollment.

About 700 Little Rock high school students have transferred to other school districts in Arkansas and throughout the nation, in addition to those enrolled in the Little Rock private schools.

Third Day of Classes.

About 220 senior students rounded out their third day of classes yesterday in the Little Rock private school. Leaders hope to have accommodations by early November for nearly 500 sophomores and juniors who pre-registered this week. About 20 seniors were absent from classes yesterday, Principal W. C. Brashears said. He did not know why they cut classes, he said.

More than 100 public high school teachers under contract are being paid their regular salaries. They do clerical work at the schools and substitute teaching in the lower grades when needed.

What withdrawal of state aid would mean to them also was an unanswered question.

"That's a very important question," Superintendent of Schools Virgil Blossom said. "I'd rather not comment until I talk to our attorneys."

N.A.A.C.P. Group Wants President to Speak in South.

DAYTONA BEACH, Fla., Oct. 25 (AP)—President Eisenhower should travel through the South speaking out against the White Citizens' Councils and similar groups, the Florida conference of the National Association for the Advancement of Colored People said yesterday.

The group urged this action in a resolution adopted at the state N.A.A.C.P. convention.

150 VOTERS TRANSFERRED IN COUNTY AFTER DEADLINE

The St. Louis County Board of Election Commissioners has approved about 150 requests for transfer of registration which were received after the Oct. 14 deadline for such transfers, Joe Oxenhandler, chairman of the board, said yesterday.

Oxenhandler said the board used its discretion in taking the action. The late transfer requests were written and were received one to two days after the deadline, he said.

"The Oct. 14 deadline was set to give the board time to prepare the books for the election," Oxenhandler explained. "Courts have held that election officials should make every effort not to disfranchise the voter. Voters can legally have their names placed on the books the day of an election by petitioning a circuit court judge."

Actor John Loder Married.

LONDON, Oct. 25 (AP)—British actor John Loder disclosed today he was married Sept. 22 to Mrs. Alba Larden, 38-year-old widow of a British-Argentine cattle rancher. Loder, 58, previously had been married four times. One of his former wives is actress Hedy Lamarr.

At School Dedication

UNITED FUND GIVEN $14,343 DONATION

A gift of $14,343 to the United Fund from Nooter Corp. was announced today. The total includes a corporate gift of $4000 from Nooter and its subsidiary, Missouri Boiler and Tank Co., and money from executives and employes.

The corporate gift is 106.7 per cent of the firm's total contribution last year, Felix N. Williams, chairman of the campaign, said.

Employe contributions, including those from members of Local 27, Boilermakers' Union, total $9943, or an average of $13.51 per employe.

Other employe gifts reported today and the percentages of gifts given last year were: Lane Bryant, Inc., 117 per cent; Roper Ford, Inc., 298 per cent; Bank of St. Ann, 121 per cent; National Life and Accident Insurance Co. of Nashville, 187 per cent, and United States Steel Supply Division, 114 per cent.

Employes of Evens Oldsmobile Co. have given $294, it was reported.

SEES CHRISTIANITY AS BIG NEED OF ASIAN PEOPLES

Christianity is the best possible solution in awakening Asian civilizations from a sense of unreality that has traditionally characterized the peoples, Dr. Erik von Kuehnelt-Leddihn, Austrian writer and lecturer, told the Webster College student body last night.

Speaking on the "Political Problems in Asia," Dr. Von Kuehnelt-Leddihn said that a political and religious void is present in Japan. "Japan's weakness is the ever present danger of filling that void with an absolute monarchy, a far more disastrous fate than a military dictatorship."

While Europeans and Americans rationalize their problems, Asians only listen to an "inner-voice" to solve their difficulties, he said. The lecture was the last in a series of 10 delivered in the college auditorium.

CURTIS SAYS FARM BUREAU APPROVES VOTING RECORD

United States Representative Thomas B. Curtis, Republican candidate for re-election in the Second district, said today the American Farm Bureau Federation credited him with voting for the best interests of farmers on seven of eight major issues in the last Congress.

Only major national and international issues affecting American farm families were selected by the national farm organization in appraising the voting records of congressional members. Curtis said he is "happy to be counted among those who firmly believe in and support a sound, healthy farm program."

ROBERT D. MURPHY WINS CATHOLIC PEACE AWARD

WASHINGTON, Oct. 25 (UPI)—The Catholic Association for International Peace presented its annual peace award to diplomat Robert D. Murphy today.

Murphy, now deputy United States under secretary of state, has been in the foreign service 41 years. He is one of four men who hold the rank of "career ambassador," the diplomatic equivalent of five-star general.

The association said his "untiring, affable and skillful diplomacy has smoothed trouble spots all over the globe and has contributed to peaceful solutions in a disturbed world."

BODY OF BELLEVILLE MAN FOUND IN OVERTURNED CAR

The body of Ardell C. Kraus, a Belleville foundry worker, was found today in his overturned automobile on a St. Clair county road near his home in Marissa, Ill., about 40 miles southeast of St. Louis, Illinois State Police reported. He died of a fractured skull.

State police said Kraus, 27 years old, apparently lost control of the machine on a curve and it ran off the road. He had been dead for some time when the body was discovered by his father, William Kraus, about one and one-half miles north of their farm home.

FEDERAL SCHOOL AID URGED BY HISTORIAN

Federal aid to education at all levels is necessary to provide equality of educational opportunities, Henry Steele Commager, historian, said here last night. He spoke at the dedication of the recently completed Haertter Hall at John Burroughs School, Ladue.

"Federal aid to education is a right and sound policy and it is inevitable," said Commager, who is professor of history and American studies at Amherst College, Amherst, Mass., and adjunct professor of history at Columbia University, New York.

In his address, entitled "Quantity and Quality in American Education" Commager, who is editor of a new series of books, "The American Nation Series," made two points.

The first was that all state educational institutions should be given the authority to set standards of education.

"This would bring pressure on high schools to be a first-rate job," he said. "Few things are more wasteful than starting a student out in an institution of higher learning, then having to drop him because he is not ready for it."

Point on Federal Aid.

His second point concerned federal aid to education.

"As long as the uneducated can vote for Senators and Representatives, and as long as the uneducated can move anywhere in the country they please, education will be in the national interest," he said.

In an interview before his address, Commager was asked if there should not be safeguards against federal domination of the nation's educational system.

"We can set up safeguards," he said, "but there's no danger of too much federal control of schools. Why, there has been federal aid to education since 1795. Today, there is the Smithsonian Institution and 50 other national institutions in which the federal government has taken a large part. No evil has come of it."

Commager, author of many books including the recent "The Great Declaration," concerning the Declaration of Independence, was asked for his opinion of the Eisenhower Administration in the light of contemporary history.

'Weak and Blundering.'

"Bad," he said. "It's a weak and blundering administration with no proper leadership in either domestic or foreign policy. What is our Formosa policy?" he asked. Without waiting for an answer he continued:

"We have a Quemoy policy at the moment, but it changes from day to day. The whole trouble with our China policy is that no one knows what it is."

Commager said he did not think Red China has "any idea" of going to war with us. He added, however, that "Secretary of State Dulles might practice the art of brinkmanship just once too often."

Haertter Hall, a $400,000 auditorium and science building, was named for Leonard D. Haertter, who has been director of the private high school since 1935. Others participating in the dedication ceremonies were John E. Dube, president of the school's board of trustees, and Benjamin H. Wells, chairman of the building campaign committee.

SHAREHOLDERS OK ISSUE BY SOUTHWESTERN BELL

Authorization to permit issuance of $110,000,000 in common stock by Southwestern Bell Telephone Co. was given yesterday by shareholders of the company. Proceeds from the sale would be used to pay off short-term loans used to finance expansion and improvement service.

The company plans to apply next week for permission from the Missouri Public Service Commission to issue the stock, a spokesman for Southwestern Bell said. If permission is granted, the company hopes to issue the stock by the end of the year, he said.

The spokesman stated that the move would increase the company's authorized common stock from 10,550,000 shares to 11,650,000. Southwestern Bell is engaged in a five-year construction program at an estimated cost of $1,200,000,000 through 1962, the spokesman added.

WEST MAY GIVE TITO $300,000,000 IN AID

LONDON, Oct. 25 (AP)—The United States and Britain are reported planning to provide Communist Yugoslavia about $300,000,000 worth of economic aid and credits.

British informants said last night that the broad purpose is to enable President Josip (Tito) Broz's government to withstand Russia's current diplomatic and economic squeeze.

As a punishment for Yugoslavia's ideology, the Russians last spring suspended a promised economic loan of $280,000,000.

This set back Yugoslavia's development plans, especially for stepping up agricultural production.

The report of the aid program came on the heels of Russia's pledge to help the United Arab Republic build a dam at Aswan on the Nile.

Tito appealed to the American, British and French governments to help his country's wobbly economy.

He asked the United States for about $250,000,000 to help develop the Yugoslav railroad and highway systems, to build power stations and to boost agriculture.

The British were asked for credits totaling about $42,000,000 to pay for about 10,000 tractors, 5000 combine harvesters and equipment for a big fertilizer processing plant.

NEW TYPE OF RED NUCLEAR BOMB REPORTED SET OFF

SHIZUOKA, Japan, Oct. 25 (AP)—A Japanese scientist said today the Soviet Union may have detonated a new type of nuclear bomb in its new series of Arctic tests.

Dr. Takanobu Shiokawa said he could find no trace of uranium in fallout collected at Shizuoka Public Health Institute in the last two days. Shiokawa's analysis of the fallout showed 49 per cent neptunium 239 and a small per cent of various other elements, but no uranium 237, usually contained in such fallout.

"Also interesting to note is that the fallout was highly soluble," he added. "The resolution easily passed through an extremely fine-mesh filter paper."

Skiokawa would not speculate on what type of new bomb might be involved in the tests.

In Washington the Atmoic Energy Commission announced yesterday that the Russians set off another "large yield" nuclear test detonation above the Arctic circle. It was the seventh big one in the current Soviet series and the thirteenth detected by the United States since the Soviet Union resumed testing Sept. 30.

CHILEAN CONGRESS ELECTS ALESSANDRI PRESIDENT

SANTIAGO, Oct. 24 (AP)—Congress yesterday elected Conservative Jorge Alessandri President of Chile for a six-year term starting Nov. 3.

Alessandri was chosen by an overwhelming majority at a joint session of the Senate and House of Deputies.

In the Sept. 4 elections, Alessandri defeated Communist-backed Socialist candidate Salvador Allende 386,000 to 355,000. Since Alessandri failed to get a majority of the popular vote, the final decision was put up to Congress, as provided in the Constitution. Most parties already had recognized Alessandri's victory and congressional vote was considered a formality.

FUNERAL SERVICES TO BE MONDAY FOR EDWIN HEIN

Funeral services for Edwin Hein, retired sales engineer for the General Electric Supply Co., will be at 10 a.m. Monday at the Witt undertaking establishment, 2929 South Jefferson avenue, with burial in Oak Hill Cemetery.

Mr. Hein, who was 68 years old and lived at 3853 Lindell boulevard, died of a heart ailment Thursday at Incarnate Word Hospital. In 1928 he became service manager for the General Electric Supply Co. and was made a sales engineer for the firm in 1939. He retired in 1950.

Surviving are a sister and two brothers.

FERGUSON MAN IS AWARDED $56,000 FOR AUTO INJURIES

Special to the Post-Dispatch.

CHICAGO, Oct. 25 — An award of $56,000 was made yesterday to Charles R. McCormick of Ferguson, Mo., for injuries suffered as a result of a collision of two automobiles here Oct. 1, 1955.

A settlement was reached by lawyers in a jury trial in United States District Court. McCormick suffered a hip fracture and internal injuries and was treated in a hospital for nearly two months, his attorneys said. McCormick walks with a limp.

He was struck as he walked across Wacker drive by one of two automobiles in the collision. Rudolph Singer, Chicago, was the driver of the car which struck McCormick, it was reported. Singer's car collided with an automobile driven by William Tessmer, Rockford.

GODFREY IN 'COPTER CRASH

LEESBURG, Va., Oct. 25 (AP)—Arthur Godfrey escaped injury when his helicopter crash-landed here yesterday* The two-place craft was wrecked.

The television-radio entertainer blamed "a malfunction of some kind." He said the trouble developed when the helicopter was about a foot from the ground as it came in for a landing. Godfrey has a home at Leesburg, which is about 30 miles from Washington.

GRANITE CITY PAYS OFF ON BAD CHECK WRITTEN IN 1928

The honor of Granite City was upheld yesterday when the city council made good an $80 city check that bounced 30 years ago.

The city was broke in 1928 and "rubber" checks were issued to municipal employes. Most were cashed within a few years as the city got back on its financial feet. But Earl C. Stroud, a motorcycle patrolman, misplaced his $80 check for two weeks' work.

Mayor Leonard Davis learned about the uncashed check recently and decided to make it good. Stroud now lives in Salt Lake City.

"Legally we would not have had to honor the check," Davis said. "But we felt we were morally obligated."

POLICE INVESTIGATE ANOTHER BOMB HOAX

Police investigated another bomb hoax last night following a report there was a bomb in the basement of the Gotham Apartments, 5904 Enright avenue.

A man telephoned Samuel U. Wolff, a member of the firm of Mary R. Wolff Real Estate Management, at his home, 1919 South Grand boulevard, and announced there was a bomb in the Gotham Apartment basement. Members of the bomb squad searched the basement, but found no bomb. The apartment tenants were not disturbed.

About 1180 elementary school children were evacuated from the Dunbar School, 1415 North Garrison avenue, yesterday after a telephone call was received at the principal's office that there was a bomb in the building.

The children were evacuated in an orderly manner by fire-drill procedure. Police, who searched the building, said they found nothing.

The telephone call was received about 11:30 a.m. Teachers were told not to tell the children about the bomb warning, but to say there would be a fire drill. The pupils remained outside until the lunch period.

Another call was received at Beaumont High School, but since it was during the lunch period, the school was not evacuated. Members of the bomb and arson squad searched the building and found nothing. Authorities said they believed both calls came from the same person.

About 2300 students, including 175 elementary pupils from the Farragut School, were in the high school building.

PEABODY COAL CO., UMW NAMED IN NEW COMPLAINTS

Special to the Post-Dispatch.

CHICAGO, Oct. 25—Peabody Coal Co. of St. Louis and Illinois district officers of the United Mine Workers of America were named in complaints filed with the National Labor Relations Board here yesterday by 15 members of UMW Local 9353 at Astoria, Ill.

The complaints, headed by Lester Phillips, local president, charged the company fired them for union activities and that district UMW officers failed to support them in grievances against the company on work assignments, overtime and other activities.

Members of Local 9353 worked at Peabody's Key mine at Astoria from 1948 until it was abandoned last January. Most of the workers then were hired at Peabody strip mines opened 20 miles away at Pleasant View. However, the 15 complainants were not hired. Peabody officials told the NLRB that the company had hired all the employes it needed. Astoria is about 100 miles north of St. Louis.

WARRANT ISSUED IN THEFT OF TRAY OF DIAMOND RINGS

A warrant charging Miss Nancy Jean Shears with the theft of 12 diamond rings from Jaccards, 910 Locust street, was issued yesterday.

Miss Shears, 21 years old, was caught and held temporarily outside the store Tuesday by a store detective, but managed to get away with a tray of rings valued at $1500. She was later arrested at her home, 5188A Cates avenue.

Miss Shears admitted taking the rings, police said, and eight of them were recovered in a house in the 1900 block of Franklin avenue. In November 1957 she was sentenced to two years for violation of narcotics laws.

'Delegate' Sentenced.

OWEGO, N.Y., Oct. 25 (UPI) — Apalachin gangland convention "delegate" Anthony P. Riela was sentenced to 60 days in Tioga county jail and fined $4250 yesterday for criminal contempt. He was granted a 60-day stay of judgment by Judge Francis Clohessy while he applies for a certificate of reasonable doubt from a Supreme Court justice.

INTERCITY BUS LINES SEEK HIGHER FARES

WASHINGTON, Oct. 25 (UPI)—Intercity bus lines in the east, south and midwest have asked the Interstate Commerce Commission for permission to boost their fares before Christmas.

The National Bus Traffic Association filed notice of the proposed increases yesterday and asked that it be allowed to skip some red tape in ICC rate proceedings so the hikes could take effect before the holidays.

The association proposed a 6 per cent fare increase for major intercity bus lines in the east and a 10 per cent hike for major lines in the south.

Two lines, Greyhound Corp. and Jefferson Transportation Co. of Minneapolis, proposed 6 per cent hikes in 12 midwest states—Missouri, Illinois, Michigan, Nebraska, Iowa, Kansas, Wisconsin, Minnesota, North Dakota, South Dakota, Montana and Wyoming.

The ICC agreed to let the eastern lines waive some red tape, clearing the way for them to file new and higher rate schedules. It has not acted yet on similar requests from the southern and midwest lines.

Once the schedules are filed, the ICC must decide whether to let them take effect automatically or suspend them pending investigation.

HEADS MOVERS CONFERENCE

L. A. Larimore, executive vice president and general manager here of United Van Lines, has been elected president of the Movers Conference of America at its annual assembly in Washington, it was announced yesterday.

Larimore, 1040 Whitecliff drive, Kirkwood, succeeded Virgil E. Freeman, who automatically became chairman of the board of the conference.

ENGINEERS

NEW AND GREATLY EXPANDED COMMERCIAL PROGRAMS

including Convair 880 and Convair 600 Jet-Liners and versions, plus F-106 Jet Interceptor, advanced missile systems, and space vehicle programs are under way at

CONVAIR
SAN DIEGO

San Diego's beautiful, year-round living plus Convair's big dynamics projects combine to make this the vigorous engineering climate for men with a proven record of accomplishment in engineering fields shown below. Even though your product experience is in some other field, chances are we can use your engineering experience in the exciting and expanding fields of aircraft, missiles, and space vehicles.

ELECTRONICS

ADVANCED ELECTRONICS SYSTEMS—Design Specialists, Senior Research and Senior Electronics Engineers are needed with background in one of the following:
Weapon systems analysis, preliminary design, electronics counter-measures, Stochastic signal theory, advanced MTI techniques and analysis, synthetic aperture systems, missile guidance analysis.

INFRARED—Physicists, Senior Engineers and Research Engineers are needed with experience in: Component research and development, system analysis and system design and development. Capable engineers with minimum infrared experience are also needed for training.

MICROWAVE AND ANTENNA DEVELOPMENT—Engineers with three to ten years experience.

ASW AND SONAR SYSTEMS ENGINEERS—with three to ten years experience.

PHYSICS AND CHEMISTRY

- Physical Chemist for work on problems of reaction-rates and/or radiation problems.
- Theoretical Physicist with experience in electro magnetic interaction with plasmas.
- Experienced microwave experimental Physicist to perform research on the interaction of microwaves with plasmas.
- Theoretical Physicist specializing in atomic or molecular cross-sections.
- Experimental Physicist to work with molecular beam apparatus, particularly for Studies of particle-particle interactions.
- Theoretical Physicist with experience in statistical mechanics and quantum mechanics.
- Experienced Spectroscopist.
- Sr. Physicist with experience in aerodynamics and kinetic theory.
- Sr. Physicist with strong math. background and interest in the interaction of radiation with matter, electron cross-sections, and radiation transport.
- Experienced theoretical Physicist with a background in fields relating to nuclear weapons.

PRELIMINARY DESIGN

to assist in Convair development programs. High analytical capability and experience is required to assure end product, with maximum technical integrity. Should have proven record of accomplishment in Pre Design engineering and the background required to establish experience criteria. Experience desirable in design fields of missiles, space vehicles, supersonic military aircraft, nuclear propulsion or commercial aircraft development.

FLIGHT TEST & SR. FLIGHT TEST

B.S. in Aero, Mechanical or E.E. plus 3 to 5 years actual experience in aircraft flight test analysis. (Special emphasis on fire control system evaluation and a/c performance evaluation.) Also openings in Flight Test and Control for F-106 Jet Interceptor programs at Holloman AFB, Alamagordo, New Mexico.

STRUCTURES

for performing original stress analysis on airframe components and writing final stress analysis reports. Aircraft structural analysis experience. Prefer B.S. in Aeronautical, Mechanical and Civil Engineering.

STRUCTURAL COMPONENT DESIGN

for work on commercial and military contracts; wing, tail and fuselage structural design; aircraft and missile electrical and electronic systems; landing gear and mechanism components; controls, propulsion systems, and furnishings.

WEAPONS SYSTEMS ANALYSIS

for Military Operations Research studies oriented toward the conceptual design and evaluation of new military weapon systems. Studies involve development of analytical models of military operations, synthesis of weapon system concepts and evaluation on an effectiveness/cost basis. Strong fundamental backgrounds in Mathematics or Physics or other sciences desired. Positions open at various levels of experience.

COMPUTERS

Openings for mathematical analysis and programming for IBM 704 digital computers. Advanced degree in Mathematics desirable.

MATHEMATICAL STATISTICIANS

for calculation and review of reliability of F-102, F-106 Weapon Systems plus reliability of the 880 Jet Airliner; also review Sub-systems in order to aid the translation of the physical configurations into functional information flow schematics.

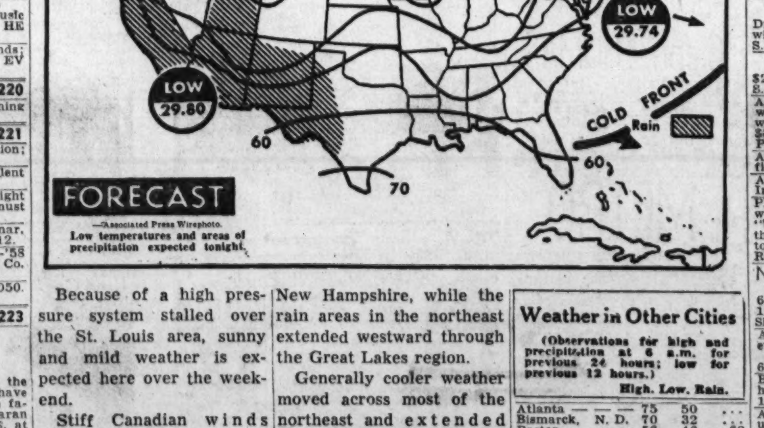
Sunny, Mild Weekend in View



—Associated Press Wirephoto.
Low temperatures and areas of precipitation expected tonight.

Because of a high pressure system stalled over the St. Louis area, sunny and mild weather is expected here over the weekend.

Stiff Canadian winds dropped temperatures to a chilly 43 last night, 19 degrees above the record low for the date set in 1887.

Showers dampened opposite corners of the country yesterday—the northeast and southwest—while generally fair and sunny weather covered the midsection of the nation.

Chilly temperatures produced snow in the upper elevations of Montana and New Hampshire, while the rain areas in the northeast extended westward through the Great Lakes region.

Generally cooler weather moved across most of the northeast and extended southward through the middle Atlantic states yesterday. To to the west, the cool pattern reached as far south as Kansas, Missouri and the Ohio Valley.

Rainfall in the southwest was heaviest in the areas surrounding Las Vegas, Nev., and Needles, Calif.

High temperature in the nation yesterday was 91 at Presidio, Tex., low was 3 at Fraser, Colo.

BIDS & PROPOSALS WTD. 286

ADVERTISEMENT FOR BIDS
Sealed proposals for the construction of Greenhouses and Headhouse, UNIVERSITY OF MISSOURI, COLUMBIA, MISSOURI, will be received by The Curators of the University of Missouri, Owner, at the Office of the Business Manager of the University of Missouri, 116 Jesse Hall, Columbia, Missouri, until 10:00 a.m., C.S.T., November 18, 1958, and will then be publicly opened and read aloud.
Plans and specifications may be inspected (secured upon $25.00 deposit) and information concerning the work to be done and the other information relating to the project and Contract Documents, together with the printed form on which BIDS MUST BE MADE, may all be obtained at the office of the Director of Construction, 401 E. Stewart Road, Columbia, Missouri, and at the office of Architects, Hellmuth, Obata & Kassabaum, Inc., 315 North Tenth Street, St. Louis 1, Missouri.
By virtue of the policy of The Board of Curators, and by virtue of statutory authority, preference will be given to materials, products, supplies, provisions and all other articles, produced, mined, manufactured, made or grown within the State of Missouri. By virtue of the policy of The Board of Curators, preference will also be given to all firms, corporations or individuals doing business as Missouri firms, corporations or individuals.
The Owner reserves the right to waive informalities in bids and to reject any or all bids.
THE CURATORS OF THE UNIVERSITY OF MISSOURI.
By: DALE O. BOWLING, Business Manager.
Date: October 21, 1958.

THE BOARD OF EDUCATION OF THE CITY OF ST. LOUIS
October 16, 1958
Sealed proposals will be received at the office of the Commissioner of School Buildings, The Board of Education Building, 911 Locust Street, 7th Floor, at 11:00 a.m. (CST) October 30, 1958:
Letting No. 6978; Description: Alterations to Building; Deposit With Bid: $1,000.00.
Attention to bidders is directed to the fact that the bidder to whom this contract is awarded and all this contract not less than the subcontractors under this letting will be required to pay the workmen employed in the execution of prevailing hourly rate of wages as determined by the Missouri Department of Labor and Industrial Relations in Special Wage Determination Order No. 1026.
Bids will be publicly opened and read at the above time. Certified or cashier's check to be enclosed with the bid; no bid bonds, firm or personal checks acceptable. There will be a charge of $25.00 per copy for the specifications and drawings, said deposit to be in cash, cashier's or certified check payable to the Board of Education of the City of St. Louis—no bid bonds acceptable—these specifications and drawings may be obtained at the Office of the Commissioner of School Buildings where all information and requirements for bidding may be obtained. The Commissioner of School Buildings reserves the right to reject any or all bids.
GEORGE H. FLETCHER,
Commissioner of School Buildings.

SEALED BIDS WANTED
Sealed proposals will be received at the Office of the Board of Public Service, Room 208 City Hall, until 12 o'clock, noon, C.S.T., November 18, 1958, for the construction of additions to the boiler room at the Homer G. Phillips Hospital, 2601 Whittier St., St. Louis, Mo. Obtain bid blanks and documents at Office of President, 301 City Hall. Deposit, $15.00 All labor shall be subject to provisions of Sections 290.210 to 290.310, inclusive, R.S., Mo., 1957.

Mrs. Roosevelt's 'On My Own—The Years Since White House' Starts Sunday

Saturday, October 25, 1958 • Part Two, Pages 1—4B

Grim Moments at Mine Head

Draegermen, heavy tanks of oxygen strapped to their backs, head for the pits to continue the grim search for men trapped by shift of rock in coal mine at Springhill, N. S. Rock slides and gas slowed rescue workers and hope was all but abandoned today for the 81 men still missing of the 174 in the mine at the time of the disaster. At left, Mrs. Isaac Holloway waits with relatives of other missing men for word of her miner husband. Soon after this picture was made the body of her husband was brought to the surface.

—Associated Press Wirephotos.

Rolling Cargo Loader

Mass of cargo is ready for final push into aircraft after being rolled into position on new cargo handling device displayed at Scott Air Force Base yesterday. Cargo lashed to platform is shunted from warehouse to truck to aircraft on beds of rollers which are credited with speeding the handling of cargo as much as 40 per cent. System was developed by Lockheed Aircraft Corp., which flew two of its C-130 Hercules transports to the base for the display.

Off and Running at St. Louis U.

Determined bachelors take advantage of a fast track and down hill slope to show good early foot in the fifteenth annual running of the Sadie Hawkins day classic at St. Louis University yesterday. Section of West Pine boulevard between Spring and Grand boulevard was scene of the Dogpatch derby and the electioneering antics of candidates for the Kampus King crowned at the Sadie Hawkins day dance last night.

—By a Post-Dispatch Photographer.

Off-Camera Political Discussion

Michigan's Gov. G. Mennen Williams wags finger at Paul D. Bagwell while giving voice to some heated remarks following televised debate between the two at Detroit Thursday. Bagwell, Republican candidate for Governor, charged in the debate that Williams's Administration was driving jobs and industries away from Michigan. Williams retained composure during the program but flared up afterward, accusing Bagwell of using demonstrably false job figures.

The Light in Fireflies

By Ramon Coffman

THE INSECTS known as fireflies (or "lightning bugs") attract attention when they are around on summer evenings. Joel Firoul Nyabonga has sent me a letter with this question:

"What makes the light in fireflies?"

In the abdomen of a firefly, near the surface, is a layer of fat which has the power to combine with oxygen. When this takes place, there is a bright glow, and that glow is the light of a firefly.

There are tiny tubes which go through the fatty layer. These tubes take in air, making it possible for oxygen from the air to combine with the fat. Fireflies belong to the beetle division of the insect race. Most beetles are without the power to make light.

Q. Where do fireflies live?

A. They exist on several continents. In North America they range from southern Canada (especially parts near the Great Lakes) southward through the United States and into Mexico. They are rare west of the Rocky mountains.

Q. Is it true that the light of a firefly is cold?

A. Yes, it is produced almost completely without heat. If we touch an electric bulb which has been lighted a few minutes, we find that it is warm or even hot. A person can hold a firefly in his hand without the slightest feeling of warmth.

There are parts of Latin America where large and brilliant fireflies are captured with nets. In those places women sometimes use them to decorate their hair at night. The tropics contain the largest fireflies.

For NATURE section of your scrapbook.
